REPUBLICAN PRIMARIES.

In accordance with resolutions passed at the meeting of the County Central Committee on Monday, August 31st, notice is hereby given to the Republican voters of Carroll County that primary meetings will be held in the several election districts, on SATURDAY, 19th DAY of SEPTEMBER, for the purpose of electing FIVE DELEGATES in each district to a County Convention, to be held at the Court House in Westminster, on MONDAY, 21st DAY of SEPTEMBER, 1891, at 10 o'clock, A. M., to nominate a county ticket, to elect FIVE DELEGATES to the Judicial Convention of the Fifth Judicial District of Maryland, to be held at Ellicott City on Tuesday, September 29th, 1891, and to name FIVE members of the State Central Committee to serve during the next two years. The primary meeting in each district, except Westminster, will also elect three members of the County Central Committee; the meeting in Westminster will elect six, three for each precinct. The hours and places of holding the primary meetings, as adopted at the last meeting of the Committee, in the various districts, are as follows:

Taneytown District—at Buffington's Hotel, from 4 to 6 P. M.

Uniontown District—at Hollenberry's Room, from 5 to 8 P. M.

PHILLIP H. MYERS, Secretary.

Farmer Frank Brown and family are home again from Europe and domiciled at their badsome residence, Charles street, Baltimore. They arrived in New York several weeks ago, but went to Newport, where they remained till the first of this week. Mr. Brown is in good health and his son, whose illness called him to Europe, has entirely recovered.

Under the new tariff law the manufacture of pearl buttons has increased so rapidly in this country, that, at the present time, fully five thousand persons are employed in that industry and earning $17 to $22 per week. The number, it is anticipated, will be increased to twenty thousand at the close of the year, and their earnings will amount to about two millions of dollars per annum.

The Republican State Central Committee met in Baltimore on Tuesday and ratified the agreement between Col. Vannort, the nominee for Governor, and Mr. Charles T. Wescott, who was elected chairman of the Committee, that the latter should decline and Mr. Harry M. Clabaugh, of this city, be chosen in his stead. Mr. Clabaugh was elected unanimously.

Farmer Frank Brown will not accept Farmer Vannort's challenge to a ten-acre plowing match, but proposes to compare farms with his Republican competitor for gubernatorial honors, as a better test of their respective farming capacity. But then Farmer Brown farms by proxy—and a very excellent proxy at that—while Farmer Vannort does his own farming. Perhaps comparison of their farm balance-sheets would be a better test than either of those proposed.

As anticipated, the Democratic State convention of New York has nominated Rosewell P. Flower for Governor. Flower was Governor Hill's man and the convention simply did his bidding in placing his name at the head of the ticket. He is possessed of large wealth, which he is expected to use freely in the campaign to promote Democratic success. His nomination is a menace to Mr. Cleveland as his election will continue the State government in the hands of the latter's enemies, who favor Hill's nomination for the Presidency.

The Democratic party in this State is not only vulnerable in its administration of State affairs, but it is inimical to the charge of unsoundness concerning one of the most important branches of the national finances. Its chief representative voted in the United States Senate for the unlimited coinage of silver, and the party, instead of repudiating the act, has everywhere expressed its abiding confidence in him. His re-election is one of the pending issues of the campaign and the Democrat who votes to return him to the Senate, by voting for legislative candidates favorable to that course, simply votes to endorse his act in favor of unlimited silver coinage. What sound money Democrat can conscientiously cast his vote in favor of that proceeding?

The attention of the Republican voters of the county is again called to the primary meetings, to be held in the several districts of the county this afternoon. Let there be a full attendance as an earnest of the interest of the Republicans in the pending election.

The Republican convention of Massachusetts, held in Boston on Wednesday, nominated Charles H. Allen, of Lowell, for Governor. His opponent was Hon. W. W. Crapo, who received 514 votes to 616 for Mr. Allen, so that 1130 delegates voted in the convention. Other nominations were made by acclamation.

New York Democrats admit the weakness of their State ticket but claim that it is more than offset by hostility to what they are pleased to term the Platt machine. If that sort of machine produces such men as Mr. Fassett, the Republican candidate for Governor of New York, it is a pity every State hasn't got one like it. It is certainly a vast improvement on the Tammany concern.

Senator Gorman must look to his laurels. The nomination of Roswell P. Flower for Governor of New York, by the Democrats, assures the presence of Governor Hill in the Senate after December 1st. Some persons have all along believed that Hill would take the nomination for Governor, himself, and resign the seat in the Senate to which he has been elected. As a boss and manipulator he has been a perfect success, even in so large a field as the great State of New York, and his ability in that line appears to be at least equal to that of Maryland's celebrated political dictator.

The receipts of wheat at Minneapolis and Duluth last week were 800 to 1,500 cars daily. The Farmers' Alliance leaders in Minne ota and South Dakota will make a determined effort to arrest this tremendous outflow. They say that at this rate 150,000,000 bushels of wheat, in what is called the "No. 1 hard belt," will be out of the farmers' hands before January 1st, and that their haste will drive the price down to 80 cents. Such a decline, however, would only be temporary, as there will be a foreign demand for more than the surplus of the United States, great as is the crop. It is probable that the farmers who are able to hold their wheat will, in the end, realize better prices than are now prevailing, but a combination to keep it from market for a prolonged period, while it would inevitably stimulate prices would eventually be followed by a break, as it would be next to impossible to prevent such a result when it would, at last, commence moving in great quantities.

The September sittings of the Registrars of voters, in the several districts of this county, will take place on Monday, Tuesday, and Wednesday, next. The places and hours of the sittings may be seen by reference to our advertising columns, in which they have now been published several weeks. The attention of unregistered Republicans, otherwise entitled to vote, is earnestly called to this matter. The Democratic bosses in this State are exceedingly anxious to receive, for their past misgovernment of its affairs, the endorsement of an overwhelming majority, and are working with great energy to accomplish that purpose. The Republicans should be as equally zealous to prove to the world that the people of Maryland are not indifferent to the disgrace which has been brought upon her fair name by the incompetency of some and the dishonesty of other Democratic officials. Let there be a full registration and a full vote.

Democratic boasts of an enormous majority at the November election in this State indicate a condition of uneasiness in the minds of the leaders of that party. They know well there is widespread dissatisfaction in their ranks with the pitiable spectacle presented by the present Democratic administration, and with the election and legislative methods which have so long disgraced the party; and they propose to divert attention from their own misdoings by inaugurating a shouting campaign and endeavoring to carry the election with an hurrah. But there are a good many Democrats who cannot be made enthusiastic over the past achievements of the ring. There are so many disreputable facts confronting them that their honest souls revolt at the pæans of praise of the chief boss, chanted by his obedient henchmen, and they will not join the chorus of anticipated victory being manufactured for the occasion. With skillful party management the Republicans should change that chorus into a wail of grief and disappointment by the result in November.

The *American Manufacturer* states that plants for the manufacture of tin plate in the United States are now actually in operation, or in course of construction, that will turn out 4,000 boxes per day. Plans are being drawn and estimates made for building as many more, making the total capacity about two and a-half millions boxes per annum. This indicates that manufacturers have faith in their ability to produce tin plate in large quantities, and, when once fairly underway, to compete successfully with the product of Welsh mills. It will be for the people of the United States to say whether they shall have the opportunity to accomplish this purpose. The repeal of the McKinley tariff law would at once destroy this bright outlook and reinvest the foreign manufufacturers with the monopoly of this product. The Democratic party is pledged to that action, and Americans of all classes should not vote to sustain their anti-American plans.

Hon. John H. B. Latrobe, Past Grand Master of Masons of Maryland, and probably the oldest member of the Baltimore bar, died at his residence, 901 North Charles street, in that city, Friday of last week in the 89th year of his age. Several sons and daughters survive him, among them being Ex-Mayor F. C. Latrobe, of Baltimore. He was a man of mark throughout his long life.

The Circuit Court for Howard county was in session at Ellicott city on Monday and Tuesday last. Among the business transacted was the conviction of Charles Shaffer for selling cigarettes and of David Shea for selling tobacco to boys under 15years of age. The former was fined $41 and the latter $17.

The ministerial institute of the Maryland Conference of the United Brethren in Christ will be held in Salem church, Keedysville, next week, beginning at 2 o'clock Tuesday afternoon and concluding on Thursday.

For High-Priced Sugar.

Over and over again the Democratic leaders of this State, and those speaking for them, have reiterated their intention to unite in an effort to repeal the McKinley tariff law. This raises an issue of great importance in the pending campaign. The repeal of that law involves the restoration of the duty on imported sugars. Indeed, the Democratic party is committed, by the passage in the House of Represenatives—in which there was a Democratic majority—of the Mills tariff bill, to the maintenance of a considerable import duty on that commodity. The duty, under the old tariff, as it would have been under the Mills law, was practically a revenue duty only, as the production of sugar in the United States has long been an almost infinitesimal portion of the amount consumed. There was, in fact, little to protect against ruinous foreign competition, and that little the McKinley law protects by the bounty system. If there were any reason to expect the development of sugar production in the United States to such a point that home competition and larger sales would result in reducing the price, as these causes have done in other products, some show of reason might be made for the proposed restoration of the duty by the Democratic party. But, under existing circumstances, its only effect would be a return to the old prices. The Republican party has given the people cheap sugar. The Democratic party proposes to make it high-priced again. That is the situation in a nutshell.

Every housekeeper, every citizen in the country is interested in this matter, and, as the Democrats have, of their own volition, made it an issue in the pending campaign, every voter should consider it from the stand-point of his own interests. In spite of the enormous quantity of sugar consumed in preserving the abundant fruits of this season the low prices, dating back to April, are still maintained and there are few homes in which a greater amount of preserved fruits are not to be found, put up at less cost, than ever before. This is the result of the McKinley law. At the same time the predictions that other articles affected by the law would advance in price, have not been realized. Almost everything except farm products is cheaper to the consumer than it was before the passage of the law. About the only thing, therefore, to be accomplished by the proposed Democratic legislation on the subject, is an advance in the price of sugar.

The Democratic leaders in Maryland ask the people to endorse this proceeding, and give their sanction to this action, by voting the Democratic ticket at the approaching election. Citizens who are in favor of maintaining cheap rates for the sugar which is so essential an article of food in every family, should put the ban of reprobation upon the project by voting for the party that has given this blessing to the people and will continue it as long as the ability to do so may be conferred by the people's will.

Work of the Pension Office.

A Washington dispatch says: In response to the letter from Congressman Enochs, of Ohio, complaining of the seeming delay in the settlement of pension claims, Commissioner of Pensions Raum has written a letter in which he says he has been and is now doing all he can to secure the prompt adjudication of all claims pending. He states that on the 1st day of July there were 523,737 claimants prosecuting cases before the bureau who have never been pensioned, and there were 385,689 claims pending in the shape of claims for increase of pension and duplicate claims under different laws, making a grand total of 929,426 pending claims. Commissioner Raum says he has brought the office up to the adjudication of 30,000 claims per month. He further says he is satisfied that the work which will be done by the pension office during the fiscal year will not cause a deficiency upon the appropriation of $133,173,085.

E. M. Tate and Everett Moore, respectively, editors of the Hopkins County Echo and the Alliance Vindicator, who have been vigorously attacking each other for some time, met in the street at Sulphur Springs, Texas, and began a fist fight, which terminated in both drawing pistols. Moore received five bullet wounds, and lived but a few hours. Tate received but one slight wound and is under arrest.

Fertilizer Bulletin

The Farmers' Fertilizer Company of Carroll County is not a misnamed corporation. It is an organization for the benefit of the Farmer and no one else; whatever profit may occur in an economical administration of its business, after payment of expenses, goes to the purchaser of its goods. That is one of the reasons why, after several years of trial, it is able to say in

1891

that, notwithstanding the advance in prices of certain material, unlike other firms, there will be

No Advance in Prices of its Goods.

A careful observation of the market will enable one to purchase in advance of a rise, and that is another reason why the Farmers' Fertilizer Company is able to

Undersell the Incautious.

Grade for grade on certain leading brands of any house or firm in Carroll county, its goods are from $4 to $6 per ton cheaper; and this is confirmed by the analysis made by the State chemist of Maryland as per report of February, 1891. That kind of testimony is unanswerable.

DON'T BE MISLED.

The announcement that extraordinary results have been obtained from isolated fields from certain liberally advertised brands of fertilizer is intended for the unwary. The best test of the virtues of any fertilizer is the result per acre from an entire farm. These same fertilizers, boomed into prominence, have been known this year on a full farm test to produce but from 18½ to 21 bushels per acre; not so in any instance, yet learned, has this been the case with our goods.

From 28 to 44 Bushels

per acre have been the result when the Farmers' Fertilizer Material has been used. We employ no agent, we sell nothing but absolutely

PURE MATERIAL.

We buy our goods before an advance in prices, we exercise the strictest economy in the management, and we therefore assert, now as heretofore, that if you want to be perfectly satisfied, give our goods a trial. In addition, if this company can be of service to any of its patrons in furnishing them with formulas, it will do so with pleasure and without charge. An allowance of $1.00 per ton will be made to those bringing their sacks with them, and a discount of 2 per cent. will be made on all cash sales.

Respectfully,

The Farmers' Fertilizer Co.,

PUBLIC SALE
—OF VALUABLE—
REAL ESTATE.

By virtue of the power contained in the last will and testament of Martin Minter, late of Carroll county, Md., deceased, and an order and decree of the Orphans' Court of Carroll county, the undersigned will sell at Public Sale, on the premises, on

SATURDAY, the 3rd DAY of OCTOBER, A. D., 1891, at 2 o'clock, P. M., all the following described Real Estate, being the same of which the said Martin Minter died seized and possessed:

First.—A parcel of land containing

24 ACRES AND 3 ROODS, more or less.

The improvements thereon are a Two-Story Log Dwelling House, summer kitchen, dairy, stable, and other outbuildings; a never failing spring of water convenient to the buildings. There is also an excellent orchard of apples and other fruit trees on the premises. The land is in a good state of cultivation, and there is a due proportion of timber and meadow land.

Second.—A Wood Lot containing

2 ACRES OF LAND, MORE OR LESS.

This property is heavily covered with Timber, and is conveniently located to the first parcel.

Third.—A Wood Lot, containing

3 ACRES AND 66 PERCHES

of land, more or less. This is also in excellent timber.

All the property is in Manchester district. The first parcel is on the road leading from Union Mills to the Baltimore and Hanover Turnpike Road and is about 2 miles and one-half from Melrose. The lot with the buildings on adjoins the lands of Beniah Bankert, Peter Lightner and others. The second lot is about ¼ mile from the first one and adjoins the land of Geo. W. Kaltrider and others. The third lot is about ¾ of a mile from the first lot and adjoins the land of Samuel Shafer and others.

A survey of this property will be made previous to the day of sale, and a plat of the same will then be exhibited by which it will be sold. Each wood lot will have an outlet or road-way.

Terms of Sale.—One third cash on the day of sale, or on the ratification thereof, one-third in six and the other one-third in twelve months from the day of sale, the credit payments to be secured by the notes of the purchaser or purchasers, with approved security, bearing interest from the day of sale; or all cash at the option of the purchaser.

CHAS. T. REIFSNIDER,
Administrator de bonis non with the will annexed of Martin Minter, deceased.

LeGore's Improved Combination of Lime

is superior to all common grades of lime.

By this system and process, a full combination of the salts of lime are furnished, and as a cheap and powerful agent it beats bone. It has no equal. The choicest carbonates of lime exist here, perhaps, as no where else. We use from three different strata or deposits, burn in separate furnaces, and then mix and proportion it so as to act on all kinds of soil and crops. This has never been attempted by any other manufacturer. Our rock and improved facilities exceed any in the State. Farmers will not need a pound of bone where this lime is used. Don't be deceived or imposed upon any longer. Be sure you are right and get Legore's combination, and be convinced how easy, quick, and cheap land can be improved and full crops grown. Furnished in car load lots to suit. Farmers can order their own lime. Guarantee a genuine article or no pay. Send for testimonials, prices, etc. Address

BEST Lanterns at BABYLON & GILBERT'S

FARMERS!

Lend Us Your Ears.

It is an indisputable fact that the

HOME MANUFACTURE

of Fertilizer in this county has reduced the cost of it to the farmer from

Three to Five Dollars Per Ton

and saved to them

Thousands of Dollars,

Therefore, is it not wisdom on your part to encourage us while we are trying to save you money, and bring you nearer to the manufacturer? We desire to deal as directly with you as possible, thereby saving to you all extra commissions. We therefore invite all farmers, farmers' clubs and grange organizations to call on us before purchasing elsewhere. We manufacture all of our own brands of goods and guarantee them as represented. They are drier, have less acid and moisture than the usual city mixture and will drill perfectly. We guarantee them free from shoddy or any inactive material, and will

Guarantee them under Forfeiture of the Purchaser's Bill

to produce as good results in a crop contest as any other for the same money, and challenge competition. We are having reports of from 38 to 44 bushels per acre having been raised this year, from the use of our Phosphate. Besides the above guarantee we are offering

SPECIAL PREMIUMS

to wheat growers using our grades, as follows: $10 for the largest yield per acre on one acre or more.
$30 for the largest yield per acre on five acres or more.
$60 for the largest yield per acre on ten acres or more.
See circulars for further description.
Our premiums last year were won by David Cover, of Winfield, and R. F. Cook, of Warfieldsburg

The Biggest Yield of Wheat in Carroll County.

The following letter from Mr. Jno. H. Stem, one of the most reputable farmers in the county, is submitted for the benefit of our patrons and all those interested:

WINFIELD, MD., JULY 23RD, 1891.

H. S. ROBERTS & CO.—SIRS:—I threshed yesterday from a scant nine acre field, sowed with 300lbs. to the acre of your "BIG GUN AND PRIDE FERTILIZERS," 380 BUSHELS OF WHEAT, averaging about 42¼ BUSHELS TO THE ACRE. I sowed 1½ bushels of seed to the acre. These are facts that it seems to me the people ought to know. If any one doubts it, I am willing to substantiate it with my oath, and other proof if necessary.

TO OUR CUSTOMERS!

The rush of business in Wheat, Straw and Phosphate will prevent us from calling to see you personally and we adopt this means of saying to you that the largest yields of Wheat and Rye in this county have been produced from the use of our WELL KNOWN BRANDS OF PHOSPHATE—

Our Pure Dissolved Raw Bone Phosphate and Royal Compound,

and we fully expect you to reserve your order for us or our representatives.

Notwithstanding the great advance in Phosphatic Materials, our contract having been given some time before the advance we propose giving our customers the advantage of our foresight by

Not Advancing the Price of our Goods.

Our general business gives us a great advantage over many of our competitors, and, although they make great CLAIMS, remember it is money in their pockets to do so. We have marked our goods away down in price, considering the quality, and we propose to maintain the former High Standard of our

FERTILIZERS

and shall expect your support in so doing.
