Belfast 14th Feby 1817

Inc. yours of the 12th & have to mention of the Jolnes this day after having experienced very rough weather. The Shipper of the Hemp told me that there was 1 Cwt deficient but no more, & I do not see why the Freight should be stopt, as the Captain did not know what quantity there was on board wt being mentioned in the Bills of Lading completely exonerates the Captain
