27 June 1808 –

C & Mollan, I am fav.d with yours of the 25th & observe
Dublin } the Contents I think the best plan
will be to get some person who can be entrusted to
the Deed to present it to the diff.t owners & let them
either refuse it or sign it at once as the purchaser
will not make his payments untill the Deed be
signed & returned – I know of no Cables the Johns had
but one, & that other that had been Junked down
to about half the original length those suppose
are still forthcoming – I really have not an
Inventory made out at the time Downey
became Mr. enclosed is one he made out
If Mr Stuart ~~wishes~~ means to make good his
bargain I fancy he just have to take her
as she is & you may say you dont believe
that either Jos Downie was able to keep yarn
out of her – much less a Cable "that she must have
had last Voyage" the sooner he does the neighbor
shbetter – There is a sloop now making her
appearance that I suppose is the Jane
I shall attend to what you say –

27 J.ns & Wm with my fr. Dongan E B

C & Mollan } Referring to mine of this Morning
Dublin } I have now to say that the Jane is
now at the Quay but on taking the
Papers to the Custom House it appears that you
have omitted Sending a permit with the ~~Vessels~~
~~Vessels~~ Flaxseed wh the Law requires & without
the Seed is liable to seizure I therefore kept
back the Invoice till you send it wh. I beg you
not omit in course, the Permit must reach the
Importation Marks Brands &c & be signed by the
Coll. I can discharge none till it be here –

If you wish till Mr Mazaire & Mr Stuart –
be satisfied with every thing I am afraid
it will be long ere you can get the Business
of the Vessels settled – It is intended to attend
the Rig of the Trial but untill the Rec.d & Sale be
signed the owner can have no Security as those
Gentlemen seem so fickle you will oblige
please to explicate that Measure as well as the
Sale of the Johns – Nothing farther occurs at
present – Dr. Agnew is teasing me about some
Casks of his that we are not deliv.g do you know any
thing of them
