Mr Jas W. Sandy
Liverpool

Dear Sir

I refer you to mine of the 4th Curr since which I am without your favours. I have been offered a parcel of Waste supposed to be 12 Cwt. it is composed of the worst flyings, Picking, rack, spinning waste the sweepings of the Carding room &c &c one penny pie with liberty to shake as much dust &c as can be conveniently done on being put into bags, in fact it must appear generally not good, but on examination I found a great deal of it that in my opinion could be brought up and from the lowness of the price I am rather inclined to think it is worth the money however I did not like to close, but has got a promise of holding untill I have time for your answer which I beg you may send me in course, pray had you to pay duty for the last, the stock of waste was all bot up about the time you were here but it will again be accumulating, please let me have your instructions as to prices not quite bound up for my governt.
