Dear Sir — York 16 Sept 1814

Esther has all ready intending to go tomorrow but could not get a Seat there were 14 taken & only 11 can go, they are all young Men, the Driver informs me & two females he intended taking down must remain till next week, considering the state of the Roads & the number in the Carriage it is perhaps as well she could not go, the disappointment will be pleasing to us & we hope no inconvenience to you the Driver says such a Thing never happened since he has been on the road, affairs in B. now throw a number now to go by Fredrick that formerly went by it. — He tells me you have bought a parcel of Cattle out of a Drove passing thro F. town, I am glad of this as the late Rains must make your grass very good & it would be a pity not to get two turns out of it — If you have not sold the fat Cattle
