Dear Sir

York 8th Feby 1815

I have before me your esteemd Letter of 6th Inst. to James & also that to Mr Ron with respect to the Flour & do not know whether the Extra Quality you mention will bring an Extra price here or not, but at all Events you may calculate on $6 p Barrel for it & another Load should you send one when Charles returns, by which means the Carriage will be saved, as he would otherwise come empty – It is necessary the Flour should be such as passes at B. mow for S. fine but more is not expected, but if we can make any more out of it, we will do it – I sold one Bl to Mr Robinson he enquired the price I told him $6 but I had not seen your Letter at that Time – however if you dont get it out of the Flour I hope you will get it out of the Bullocks which will be the same, I think in Spring Meat will give a good price – There can nothing be done about the Horses
