Son) to the Late Mr Neil's Estate & if taken he can pay it out of the proceeds of a Farm of 100 Acres which is Let on Shares near this Town in about a Month, I told him the price would be par, & I think it very probable Mr Neil will take it, of course I will not return it until he hears, which will probably be by tomorrow post, but too late for me to inform you by this oppty. — I have no doubt two or three Carcasses of good Mutton could be disposed of, for at least 7d ℔ perhaps some of it more, our Market Days are Wednesdays & Saturdays & it would be necessary to have it here the Day before, Eggs sell about 12½ Cents ℔ Dozen. The Clover Seed will be forthcoming & a part of the Money not being sent at the Time will not make any Difference — The Black Strap was occasioned by the Malt being Coloured by Smoke owing to the Stove Pipe under the Kiln Head slipping out of its place, the pale Ale we have made exceeds any 6d Porter I saw in Belfast, it is pale, as fine as Wine & very fine flavoured. the porter I have no doubt will be equally good, — We are well here. —

I remain
Dear Sir
Yours very Sincerely
Jno Thomson
