Dear Sir

York 30 June 1815

Your esteemd favor to S.V.T. we recd this day also some Hand Bills which shall be attended to — For the breakage in the Porter I cannot well account, but I am inclined to think it must be owing to the exposd way of carrying it on the Top of the boards — I packd it myself & (as usual) put as much Straw between the Bottles & lid as would allow it to shut down, out of 30 dozen to Hanover last Week packd the same way, only 3 bottles were broke & out of 44 Dozen to Carlisle (a very bad road) only 5 or 6 the week before. — I understand you intend visiting Baltimore early in the Week & think it probable you may receive this previous to your departure, on which Acct I have enclosd a paper which I believe I once shewd you here, it is a List of Monies Subscribd for the benefit of my Family, or rather on my Acct, & when not wanted in that way was turnd over for their use, & remains as stated at the foot of it at Interest in the Belfast
