Baltimore August 16. 1815

Dear Sir

Since having the pleasure of seeing you & Miss B. I have brought my Family from Boston, & have commenced Business, as you will perceive by the Cards which I take the liberty of enclosing — I hope this will find you & Family well, after the Bacchic name weather we have had. It has been cooler here for some days, & there has been heavy rain. I have flattered myself that my application to you, soliciting your Kind Patronage, will not be unpleasant, & be assured that every attention shall be paid to give satisfaction to yourself or any Friends whom you should think proper to influence to call on me — I can advance the Amount of any produce consigned, at the time of delivery & shall at all times be enabled to purchase at Market price — Perhaps I shall soon have the pleasure of seeing you here — Flour has gain way a little in price, & is expected to be much lower — Ex Flour is fm 8 to 8½, New 8 — The Cotton sells readily to Bakers — Ex Rice is but fm arrivals. I dont expect the price will be much lower for some weeks, but as soon as the new Crop comes fairly into Market, I much fear that Fm will be difficult to obtain — Whiskey has been extremely scarce — as high last week as 99, & is now about 95 — I have Letters from Belfast up to the 20th May — Business there continued flat — With best respects to Mrs B & Family I Remain Dear Sir

Your Sincerely
Wm Grimshaw
