Watering Garden Plants.

From American Voice.

Watering garden plants, as commonly practiced, is an absolute injury to vegetation, for the reason that it is not done plentifully enough. When the earth is dry and hot, the application of a little water only increases the heat and has a tendency to make the soil more compressed and drier than before. The most of our soils are more or less calcareous, and the action of the sun's heat has the same effect as heat upon limestone. The carbonic acid is expelled, and when brought in contact with moisture heat is generated, and unless sufficient water is applied to overcome the heat, vegetation suffers. A sprinkling pot should never be used in time of drought, unless the soil around the roots of the plants is at the same time thoroughly soaked, and the watering should always take place after sunset, when the dew has begun to fall.

This is in accordance with natural laws. Rain and sunshine seldom appear together, and, further, when nature waters vegetation the atmosphere is filled with moisture. Pool water and soapsuds are good for the garden, and cistern water may be used, but should be exposed to the sun and air through the day before applying. Strong liquid from the barnyard is death to garden plants and should only be used after diluting until very weak. My plan of watering to avoid making a hard surface crust around the plants, says a writer, is to dig three or four holes on the different sides of the hill a few inches away, and into these pour not less than one pailful of water, and after all has soaked in replace the dry earth, and then with watering pot sprinkle the dry earth.

Cedar for Pencils.

Ask the next wise man you meet how many lead pencils are consumed per capita by the inhabitants of the United States and see if his wisdom will stand by him. If he answers correctly, says the *Northwestern Lumberman*, he will say something less than four for every man, woman and child.

The wood of which these pencils are made comes from Florida. It is red cedar, straight grained and comparatively free from knots. One of the manufacturing concerns has a mill in Florida where cedar logs are transformed into strips about seven inches long, three-eighths of an inch thick and three inches wide. These strips are crated and sent North. Each strip represents a half of six pencils. Six grooves are made lengthwise; into these grooves the graphite is placed and two strips are glued together. The block is then split into squares and the pencils finished either round or hexagon as desired.

May be you have never thought of it in that light, but the pencil industry uses up a large amount of cedar. An average red cedar log contains about four cubic feet of wood, and there are on an average 25 trees to the acre. If no mistake has been made in the rapid computation, it requires the timber from not less than 2,600 acres to supply the pencil manufacturers of this country. In addition considerable cedar is exported to Germany. Alabama was once the great pencil cedar producing State, but the cedar, which was clearer and larger than that found in Florida, is exhausted. Manufacturers have tested other kinds of wood with a view to finding a substitute for cedar, but so far without success.

It doesn't take long to make one pencil. The graphite is ground and mixed with great care, and in this mixing is the pencil maker's secret. The mixture is placed in a machine that might properly be called a little sausage stuffer, from the end of which is forced a constant stream of lead the proper size for a pencil. These threads of lead are cut in lengths, baked in an oven, and when hard are glued into the little grooves. The rough pencils are shaped either round or hexagon at the rate of 75 a minute, or 45,000 a day; 125 pencils a minute, or 75,000 a day, are colored and varnished; burnishing and stamping are done at the rate of 150 a minute, or 60,000 a day. This work is done by machinery operated by girls not more than 12 years of age, and who, no doubt, earn as much as a dollar or two a week.

The little blocks which are frequently used inside of the bunches of pencils are made of poplar, each block being groved to fit the pencils. Twenty years ago you paid more for a pencil than you do to-day. The invention of machinery and the discovery of a graphite mine have reduced the cost of them at least 50 per cent. Foreign pencils have been ousted, and at present, if I am not mistaken, we export about as many lead pencils as we import.

The few factories in this country hang together like brothers, and the chances are that if we should put our spare money into a lead pencil factory, they would make it warm for us. Whether you think a pencil is a good one or not, depends. If the profits on the lumber are rolling in and you are making money hand over fist, you would be satisfied to figure with a burnt stick, but when it is uphill business to make the two ends meet, it takes an A1 pencil to call out favorable comment.

All Who are Suffering with Piles, Read the Following.

BIRD HILL, MD., JUNE 5th, 1893.

Dr. John S. Mathias:

Dear Sir:—I feel as though it would be a duty left undone and one I owe to yourself and to suffering humanity—if I did not tell of the wonderful benefit I received from your kind treatment. I suffered for about twenty years with Piles—for the first seven or eight years, not so severely; but for the last twelve years I suffered more than I am able to describe on paper, indeed I had them in their severest form. I applied to a number of doctors, and tried every remedy that I heard of, only to be disappointed and in nearly every instance not even temporary relief.

Indeed, I was in a pitiful condition when I called on you. Think of nine large tumors protruding, capable of bleeding fully a pint at every time they bled. I was so weak and nervous from loss of blood and from intense suffering that I did not think life worth living any longer. But thanks to you and your kind treatment, I can say that the Piles are a thing of the past. I cannot find language to express my gratitude to you, for your kind treatment and attention in my case, and humbly pray to God that your life may be a long and prosperous one. Let me say in conclusion that I can with confidence recommend any sufferer, no matter how bad his case may be, to go to Dr. John S. Mathias and be cured.

You are at liberty to use this letter as you see fit. Every sufferer wishing to know more about my case, can find out by addressing me at my postoffice.

Very truly yours,
HOWARD T. SMITH.

STAND BY THE POLICY,

Sublime, Patriotic, and National,

of America for the Residents of America. Do not abandon the system which gives the country the best Opportunities for its Farmers, Mechanics, and Young People, they have ever had! No Interference with the Protective Tariff and no Repeal!

Trample upon every proposition for Unlimited Free Coinage of Silver Dollars which are worth only 72 cents on the dollar. Make them worth a full Dollar. The $145,000,000 of National Bank Notes withdrawn from circulation since 1881 have been replaced by over 325,000,000 of Silver which has been put out. Now make the people's money worth its face, for your own benefit!

Reserve the Public Lands for actual settlers and save them from monopolies and speculators! Protect and encourage the actual settler!

No interference with the progressive policies of the Republican party (repeatedly enacted into law) of building up a New Navy; Protecting the Sea Coasts; Pensioning Union veterans; excluding the Chinese; Regulating Inter-State Commerce; defending the Common Schools; Protecting American Citizens abroad; Securing Reciprocity with other American Nations; demanding Free Expression of the Popular Will in Elections, and an Honest Count; Extending American Commerce; Reviving American Shipping; Temperance; and Restraining Trusts.

The Superb Market Reports of The N. Y. Tribune are now positively the best printed by any newspaper in New York City. The Tribune is the only newspaper in New York, which sends men personally into every market in the city every day of the business week to obtain actual prices and the state of trade. Other papers make up quotations largely from circulars. Commercial travelers say unanimously that the Tribune's Market Reports are the best. The Tribune now beats all rivals in the accuracy and wonderful completeness of its quotations. To be successful, a practical and level headed man must keep fully informed as to Prices and the State of Trade. This can be done by taking the Tribune.

Illustrations of the news of the day are freely used in the Tribune. This paper has its own corps of artists and photo-engraving plant. It contains features for the ladies and children; foreign letters and book reviews, and many special features.

No matter whether you agree with the N. Y. Tribune or not in its sentiments, can you afford not to read its Dollar Weekly, regularly, while a reactionary party is in power and during these times of Change?

The N. Y. Tribune is the ablest, most aggressive, and soundest advocate of Republican policies. What the Republican party intends can be learned from the N. Y. Tribune. The Tribune's motto is the Truth and only the Truth. The articles of Roswell G. Horr, on the Tariff, Currency, Wages, etc., will be continued.

Remember! The N. Y. Tribune is the cleanest, purest, and safest of newspapers for your family. Does a weekly newspaper, which invades the home with immorality, sensation, and falsehood, receive your sanction? The broad columns and large print of The Tribune make it the easiest paper to read.

The Tribune has the largest circulation of any Weekly in the United States, issued from the office of a Daily. We have challenged the country for a year, with no takers.

"Washington's Farewell." Write for the full illustrated Premium List of The N. Y. Tribune. A copy will be mailed, free of charge. "Washington's Farewell to his Officers," an accurate historical picture, painted expressly for The Tribune by an artist of great authority, will be sent to every one paying $1.50 for his paper. Other exceedingly interesting and valuable articles are included in The Tribune's list.

Terms for 1894. Sample copies free. Weekly, $1. Semi-Weekly, $2. Daily, including Sunday, $10. The Sunday Tribune separately, $2. Tribune Almanac for 1894, ready in January, 25 cents, all previous numbers eclipsed.
