Mr Birnie

I am at present out of oats if you can I wish you would send me som this Day I am oblige to get som oats som where if I cannot get som oats from you your Compliance would Render great Satisfaction to your friend

Michael Stover

Baltimore Nov 16

Dear Father

I received your letter by Snook and also Mr Littles, He says he does not think she will answer him, both on account of the price being too high, and she being pregnant Snook says he will try to sell the flour but in case he cannot he will let it remain until he comes down next week, I am now as far as Loss and gain in the Arithmetic, and if I had another Slate I would begin and go all over the Arithmetic at home here at my leisure hours, I am learning Geography, and every Wednesday evening there is a certain portion of it explained on the map's and I say a lesson in it every day. As there will be frequent opportunities now from home, here I think it would be better if you would never write by the post at all, for it makes the post master very angry, at me bothering him so much when there are no letters for me, Tell Rose if I have time I will write to her by John Darby. I have not received my clothes yet but I suppose they are the Store where I will call to morrow. Give my love to all the family. I remain your Dutiful Son C Birnie

Please to send me a watch as soon as possible
