WESTMINSTER, MARYLAND.

W. L. W. Seabrook - Editor.

Entered at the Postoffice at Westminster, Md., as Second-class matter.

SATURDAY, JANUARY 12, 1895.

The name of Chief Judge Charles B. Roberts, of this city, is being mentioned in connection with the Democratic Gubernatorial nomination. The party might look elsewhere for a candidate and do much worse in making its selection.

"A straight Democrat," in a communication to the *Advocate* of the 29th ult., suggests a public meeting of Democrats, at an early day, in Westminster, to perfect a plan of party organization—for Carroll county we presume. Does this imply present disorganization, or is it the suggestion of a movement to change managers?

The House of Representatives has voted against a rule to order the Previous Question on the pending Currency bill, and the prospect of legislation in relation to the subject at the present session of Congress is doubtful. The pending bill cannot pass, but another bill, said to make concessions to the silver men, is in course of preparation, and Secretary Carlisle has some hope that it may go through. The administration seems to be ready to accept any legislation on the currency, however objectionable, as it was on the tariff.

The exclusion of American cattle from Germany, Austria an other European countries, as an incident of the Wilson-Gorman tariff bill, will have a wide-spread and damaging effect on the beef-cattle markets of this country, and Carroll county will not escape loss from its results. Some time ago we noted that State Senator Bennett was feeding, for shipment to Europe, sixty of the finest cattle ever brought into this county. He has to thank a Democratic Congress for legislation that will so restrict the markets for these cattle on the other side of the ocean as to inevitably reduce prices and curtail, if not entirely destroy, profits. This is one of the queer ways in which Democracy is redeeming its promises to help the agricultural interests of the country.

The attitude of the Cleveland administration toward the Hawaiian Republic has at last driven that Government to ask that the treaty which binds Hawaii not to lease or alienate to any other Power than the United States, any portion of her territory or her harbors, to relax that provision, so that she may enter into an agreement with great Britain, Australia and Canada for closer relations with them through the laying and operation of a trans-Pacific cable. Great Britain desires to lease one of the uninhabited Hawaiian Islands for a cable station, whence a branch line is to be maintained to Honolulu. President Cleveland communicates the desire of the Hawaiian government to Congress in a special message and coolly recommends that the request be granted. Is comment on such baseness necessary?

One Effect of the New Tariff.

The editorial columns of the *Advocate* of the 29th ult. contain the following admission of the effect of the new tariff on our commercial intercourse with Cuba:

> The United States and Spain has a tariff war on hand. Spain has two columns into which she places nations with which she has treaty relations. In the first are those whose treaty arrangements are not satisfactory and in the second those that are. In the first column, along with Brazil, Spain has placed the United States, because of dissatisfaction with the sugar schedule of the new tariff act. Secretary Gresham has directed Minister Taylor at Madrid to notify the Spanish government that if the United States is not removed from the first column this country will retaliate. Should Spain decline to accede, then the next step would be for President Cleveland to issue a proclamation closing all American ports to the products of Spain and her possessions, if the threat of retaliation is to be carried out.
>
> Upon the principle involved the United States holds the correct view, but in the tariff war she will decidedly get the worst of it in a material sense. The most of our raw sugar comes from Cuba, and if it is debarred the price of that commodity, it is thought, will be about three cents a pound higher in this country. This will be a serious blow, unless the old spirit of '76 is aroused in the American breast and the people abstain from the use of sugar as they did of tea. Then the placing of the United States in the first column meant an increase of seventy-five cents a barrel on flour from this country, and this has resulted in practically placing Spain's flour trade in Canadian hands. Canada is in Spain's second column, and the duty on flour from countries in this column is $4.00 a barrel as against $4.75 on flour from first column countries.

This is a truthful statement of the case as far as it goes, but it does not give the complete story of the causes which have produced the unsatisfactory condition of our relations with Spain and our consequent practical exclusion from the markets of her rich dependency, Cuba. Undoubtedly the new tariff is the provoking cause of this result, as it involved the abrogation of the reciprocity treaty made between this country and Spain under the McKinley tariff law. Prior to the passage of that law the same discrimination against American products was made by Spain as are again in force, but, as in that law, raw sugars were placed on the free list, and power lodged in the President to discriminate against countries which did not place America on a footing with the most favored nations in their tariff laws, Spain was forced to agree to concede our demands or pay a duty on sugars imported from Cuba, while that from other countries was admitted free. In other words the McKinley law placed America in a position to dictate terms with Spain. This vantage ground was voluntarily surrendered in the present mongrel tariff law and Spain has promptly restored the onerous restrictions on American products previously in force. She is in a position, too, to defy our attempts at retaliation. Sugar is the staple product of Cuba and, as the *Advocate* states, the larger portion of the raw sugar consumed in this country comes from that island. It is now dutiable at a certain rate, which cannot be increased without a change in the law. Hence no remedy for the discrimination against us is apparent. The first effect of the new tariff law is precisely the reverse of that claimed for it by its Democratic sponsors. Instead of opening new markets for American products it is closing some of the most valuable against us. Germany has already taken steps to exclude American pork and beef and Austria and France are moving in the same direction. If the Democrats in Congress had been actuated by the studied purpose to destroy the prosperity of the country they could scarcely have enacted a law more effective in that direction. Its effect upon the manufacturing and labor interests of the country has been completely demonstrated, and other industrtes are suffering severely from the foreign competition forced upon them by the law. These were inevitable results, but, according to Democratic theories, they were to be more than counterbalanced by the enlarged markets to be gained by the new law. Instead, there has been a serious shrinkage directly consequent upon the abrogation of reciprocity treaties made under the McKinley law. Take the record of exports to Cuba, during the month of October in 1893 and 1894, as an example, and the loss to American producers will be seen at a glance. The comparison shows up as follows:

	Oct. 1893.	Oct. 1894.
Exports of flour, barrels...	28,737	4,631
Exports of corn, bushels...	63,360	1,072
Exports of lard, pounds...	3,031,219	799,421
Exports of hams, pounds..	477,261	344,232
Exports of bacon, pounds.	540,720	269,462

But this shrinkage, great as it is, is not confined to the articles enumerated. The market for American machinery in Cuba, which had been opened and was steadily increasing, has been sacrificed on the same partisan altar.

THE COMPANION'S CALENDAR.

THE YOUTH'S COMPANION has just published a calendar for 1895 which is a work of art—indeed, three works of art in one. Scenes typical of three seasons of the year, Winter, Summer, Autumn, are shown. The first picture represents a mother and son pausing in their walk in a snowy field, across which a rabbit is running, much to the amusement of the boy.

The artist in the summer scene has pictured three children rowing down a winding river; and were it not for the apples which fill the pan in her arms, one would scarcely imagine that the graceful girl in the third picture was typical of Autumn. Around the pictures are grouped the monthly calendars, tied together by ribbons.

This attractive calendar and a full Prospectus for 1895 will be sent free upon application, to any one considering a subscription to THE COMPANION. From no other paper can so much entertainment and instruction be obtained for so little money (only $1.75 a year). If you subscribe now you will receive the paper until January 1, 1895, and for a full year from that date, including the Thanksgiving, Christmas and New Year's Double Numbers.

THE NEW YORK TRIBUNE.
1895.

Foremost of American Weeklies.

Circulation 168,000 Copies a Week.

First to rally from the overwhelming defeat of 1892, THE NEW YORK TRIBUNE patiently labored for two years to awaken the sleeping judgment of the Nation. Possessing an enormous circulation, equipped with a staff of competent and honest students of public questions, and itself having no object to serve except the welfare of the masses upon the farms and in the shops, scorning lies and sensational appeals, and as [illegible] merely to place the truth before its readers, THE TRIBUNE has sent to half a million earnest and reflecting people, weekly, a budget of honest facts, sensible arguments and friendly suggestions which have at last borne fruit in the elections of 1894. The work of the people is, however, only half done. It is necessary in 1896 to place in the Chair which Grover Cleveland has not adorned, a constructive statesman of the Republican faith. To this task THE TRIBUNE now addresses itself, and invites the support of every American citizen who desires a return of the "good old times."

Roswell G. Horr, ex Congressman from Michigan, but now of New York City, will continue to discuss Tariff, Currency, Coinage and Labor questions in THE TRIBUNE. By all odds the most witty, earnest and well-informed speaker upon the stump, he is every year sent by THE TRIBUNE to aid the local campaigns in every part of the country. He keeps in constant touch with the people, knows their wants, and addresses himself in THE TRIBUNE directly to the thoughts which are in their minds, and makes himself understood. He will gladly answer questions, asked in good faith, by readers.

All the regular features of THE TRIBUNE will be continued. For Western readers, a special array of Western news is supplied. For Eastern readers an Eastern edition is printed.

It is the intention to make the paper especially helpful to farmers and mechanics. Each class has its separate department in THE TRIBUNE; and the new inventions of mechanics, who lack the means to exploit the product of their brains, are advertised free of charge in the hope of aiding them to find a purchaser or a partner.

The market reports of THE TRIBUNE, long acknowledged to be the best in the country, will maintain their old standard; and the usual variety of foreign news letters, essays upon home topics, book reviews, articles on chess and checkers, and miscellany will be presented every week. The editorial pages of the paper sum up the most important news of the day, with comments.

THE TRIBUNE also prints, for the ladies, the very latest fashions from Paris and London, and there is a department of "Answers to Questions," conducted by a capable writer, in which all the questions of the people on miscellaneous topics are carefully answered.

THE SEMI-WEEKLY TRIBUNE is an incomparable paper for residents who live beyond the range of THE DAILY TRIBUNE, but find it necessary to keep in touch with the best thoughts and higher interests of the world at large.

A few premiums are offered to readers and club agents.

Any friend of THE TRIBUNE is cordially invited to send for sample copies and terms, and make up a club of subscribers. We would be especially pleased to see a large circle of readers in every workshop.

THE WEEKLY, $1; THE SEMI-WEEKLY, $2; THE DAILY TRIBUNE, $10 a year. THE TRIBUNE Almanac for 1895, ready in January, 25 cents a copy.

ST. NICHOLAS

FOR YOUNG FOLKS IN 1895.
EDITED BY MARY MAPES DODGE.

The greatest year in the history of this magazine, now without a rival in its field, is the one just closing. Plans for the coming year assure even greater success than in the past.

RUDYARD KIPLING

wrote his famous "Jungle Stories" for St. Nicholas, and it is a welcome announcement that these will be continued in 1895.

NAPOLEON FOR YOUNG READERS.

While the Century will have for its leading feature the new Life of the French Emperor by Prof. Sloane, one of the most popular of St. Nicholas writers takes the same character for his inspiration.

A BOY OF THE FIRST EMPIRE, BY ELBRIDGE S. BROOKS,

is the story of a little lad from the streets of Paris (but of good family) who renders a service to Napoleon, and becomes one of his pages and finally an aide. He is with him at the most critical times of his life,—at the departure for Elba, in the glories of the life at Fontainebleau, and finally at Waterloo. The story glows with pageantry, and is a truthful and accurate account, based upon the best authorities and verified by the latest information, of the life of "the man of destiny." It is really a delightful story-history of Napoleon.

WEST POINT AND MAN-OF-WAR LIFE

will receive attention, Lieutenant Putman writing of cadet life at the military academy, while Ensign Ellicott, of the flag-ship "Chicago," will describe the experience of our hardy seamen on the modern ships of war.

INSPIRING TALES FOR BOYS AND GIRLS.

Theodore Roosevelt will write a series to be called "Hero-Tales from American History," recounting famous deeds of heroism about which young people ought to know. Prof. Brander Matthews will include in his entertaining papers on "The Great American Authors" accounts of the lives of Bryant, Emerson, Longfellow, Hawthorne, Whittier, Poe and Lowell. Stories of Famous Horses in history and mythology—Bucephalus, Napoleon's and Sheridan's horses, etc.—will be told by James Baldwin, author of "Stories from the Northern Myths." City Fire Departments will be treated, and there will be two or three papers on The Boys' Brigade. The Serial Stories are many. One called "Chris and the Wonderful Lamp" recounts the marvelous adventures of a modern boy who became the incidental purchaser of Aladdin's lamp and summoned the jinn while cleaning it. A delightful story of college girls, "The Three Freshmen," will appeal to every girl; and "Teddy and Carrots," James Otis's serial of newsboy life, will be read by every boy. A serial story by Francis Courtenay Baylor is one of the features.

PRICE

of St. Nicholas is 25 cents a number or $3.00 a year. New subscriptions should begin with November, the first issue of the year. Subscribe through dealers, or remit by check, draft, or money-order to
