I told them I would write & enquire what price you would give — a number of those who were working at the water works here have died — to day a brother of Thos & McAleers was buried (Michl McAleer) & last week a Cousin — besides some others — our Business has exceeds our most sanguine expectations nothing but continual washing filling, corking &c to meet the orders, the Waggon went to B. mor yesterday for a third Load of Bottles which I think will give us a good supply — Out of three Loads we sent to Carlisle Hanover & Gettysburg about 1350 doz there was only one Bottle broke so that friend Shorbs charge of carelessness wont hold good. I have snatched a moment from the Corking to say so far; we have just had one of the severest gusts of Rain & thunder I ever saw, — With kind Love to all your family — Remain

Yours very sincerely

Geo Thomson

Nancy thinks Fanny might have wrote but I believe there has been no one at the office to day
