Dear Sir George Town 4 Sept - 46

May you permit me to ask you to take the trouble to get the requisite information and to convey it to me by mail as soon as your convenience will permit — as to the character and Terms of a female academy at Emmettsburg in your vicinity — I have heard it well spoken of, and once an desirous of sending a niece of mine to it, if I should have those accounts confirmed — I understand it is a catholic institution — but I dont know if they receive pupils of other religions — my niece belongs to the protestant persuasion —

How this fact stands? if the persons superintending have piety and capacity? What are the branches taught? Where young ladies are accomodated with board, if in the academy or elsewhere — and by whom taught, attended, or provided for? the terms of tuition and board —? are the bedding &c queries — answers to these — and your opinion as to the general eligibility of the School will very much oblige
