my own opinion from the three first Days after she came near to that effect - the Calf sucking her - gave an appearance of Springing. which now is completelly removed - I think her good Boy -

I often think on the Night we lost ourselves in the Woods - and had I once thought of the Snakes - my Hat might remain since on the Ground - I think I had a lucky escape from being bit by some Reptile or other - how comes on the Road - do let me know how all your much respected Family are - also Mrs Read & Family with the Councellor how is Major Gill Albany - I wish the happy Night was once come that Sally with some of your Daughters may return - as the time seems now to me an age - also please let me know how your Brother stood his Journey with my best Compliments to him

I made my first Brewing yesterday - appearance very good & what I know you will approve of Pale - I wish I could get a Young Man of Character with some Money for teaching him the Business - It would relieve me much Mr Nass is very sorry he did not know of it three weeks ago - or he would prefer putting his Son to me instead of Mr Walsh — Mrs Scanlan joins me in love to all the Family - And believe me Dear Sir Your ever Sincere Friend

York
