Arts and Industries that did not Exist Fifteen Years Ago.

"Right here in the Patent Office you may watch the forward ruth of civilization and realize how rapid it is," said Chief Examiner Greely to a writer for the *Washington Star*. "Probably it has never occurred to you to consider how many arts and indurstries that are of importance today were unknown in 1880. Their creation has given employment to tens of thousands of people and to billions of dollars of capital. If we were thrown back only so far as a decade and a half, we should find ourselves deprived of numerous comforts, and even necessaries, as we now regard them, which were not obtainable at all fifteen years ago.

"The self-binding harvester is new since 1880, commercially speaking. It renders possible the gathering of certain cereal crops with a rapidity unapproachable by hand labor. Hundreds of thousands of men would be required to reap the harvest of the great Northwest without the aid of this machine. It has made practicable the raising of crops far larger than could be produced and garnered otherwise. Incidentally food has been cheapened.

"The typewriter was not put on the market until 1883. It seems wonderful that we could have got along at all without it. In eleven years from $25,000,000 to $30,000,000 worth of typewriters have been sold. This machine has opened a new field for womens work.

It has increased the demand for writers of shorthand very greatly. The quantity of matter actually written has been enormously increased by this invention. It has rendered letter writing so easy that many people now maintain a large correspondence who would write very few letters by longhand. Merchants write more than twice as many letters as they used to, and the volume of the mails has been proportionately augmented.

CABLE AND ELECTRIC ROADS.

"Who, in 1880, had ever heard of a 'gripman' or 'motorman'? The cable and electric roads are new since then. The cost of constructing and equipping them is mainly for labor, and in this way employment has been given to great numbers of men. These novel systems of traction have given work to the regiments of honest fellows who now wear uniforms. When horse cars are superseded by electricity or the cable, the number of passengers carried is always greatly increased and more cars are run, requiring a larger number of employees. The labor at the power houses is better paid than at the stables.

"The last fifteen years have witnessed the creation of the electric light, the electric railway, the telephone, and a large variety of industries depending on electricity. The inventions on which they are based have deprived nobody of employment. On the contrary, they have opened entirely new fields and fresh demands for labor. Without the aid of our patent system, which holds out to the inventor the prospect of reward, how many of these new ideas, which represent the forward steps of civilization, would remain without fruit, if not unthought of?

"The two most important of very recent inventions are the typemaking machine and the cash register. The latter has already put on the market $15,000,000 or $20,000,000 worth of material, the cost of which is mainly labor. Let me not forget to mention in the list of novel industries the manufacture of the bicycle, which is new, commercially, since 1880."

Facts About the Bible.

The Bible contains 3,566,480 letters, 773,746 words, 31,173 verses, 11,189 chapters and 66 books. The ward "and" occurs 40,278 times. The word "Lord" occurs 1,855 times. The word "reverend" occurs but once, which is in the 9th verse of the 111th Psalm. The middle verse is the 8th verse of the 11th Psalm. The 21st verse of the 7th chapter of Ezra contains all the letters of the alphabet, except the letter J. The longest verse is the 9th verse of the 8th chapter of Esther. The shortest is the 35th verse of the 11th chapter of St. John. There are no words or names of more than six syllables found in the Bible.

Work every hour, paid or unpaid; see only that thou workest, and thou canst not escape thy reward. Whether thy work be fine or coarse, planting corn or writing epics, so only that it be honest work done in thine own approbution, it shall earn a reward to tha senses as well as to the thought. The reward of a thing well done is to have done it.

THE CENTURY

IN 1895.

Taking advantage of the general revival of interest in the Great Emperor, The Century will print during 1895

A NEW LIFE OF NAPOLEON, MAGNIFICENTLY ILLUSTRATED.

The Century is famous for its great historical serials, and never in its history has a greater one been projected than this new "Life of Napoleon," written by Prof. William M. Sloane, of Princeton, who has spent many years in preparation for his work. Thus far no biography of "the man of destiny" has appeared in either English or French that is free from rancor and attentive to the laws of historical criticism. The Century has secured it—the great, all-round, complete and interesting history of the life of one of the most marvelous of men. No matter how much you already know of Napoleon, you will want to read this:—here is the concentration of all the lives and memoirs. The illustrations will be magnificent—the wealth of the Century's art department will be layished upon them. Two members of the staff have just returned from Paris, where they have been securing all that is best of Napoleonic material. New portraits will be printed, great historical paintings reproduced, and Castaigne and other modern artists have drawn anew some of the great scenes of Napoleon's life of this history.

In addition to this there will be

A NEW NOVEL BY MARION CRAWFORD.

The title is "Casa Braccio," and it is a romance of Italy, full of human passion and exciting episode.

A NEW NOVEL BY MRS. BURTON HARRISON

will be published during the year. It is called "An Errant Wooing," and is a tale of wandering (and love) among new scenes of travel in Northern Africa and Southern Spain.

OTHER FEATURES

will be several familiar papers on "Washington in Lincoln's Time," by Noah Brooks, who was on terms of unusual intimacy with the War President; "The Cathedrals of France" by Mrs. Schuyler Van Rensselaer, with illustrations by Joseph Pennell. Many more serials will be announced later.

RUDYARD KIPLING.

contributes his First American Story to the December number of The Century.

THE PRICE

of The Century is $4.00 a year. "No home is complete without it." Begin subscriptions with November number. Whatever other magazines you may take, you must have The Century. All agents and dealers take subscriptions, or remittance may be made directly to

THE CENTURY COMPANY,
UNION SQUARE, NEW YORK.

Send for our beautifully illustrated pamphlet, "The Century Co. and its Work," and mention where you saw this.

Harper's Weekly IN 1895.

HARPER'S WEEKLY is a pictorial history of the times. It presents every important event promptly, accurately, and exhaustively in illustration and descriptive text of the highest order.

The manner in which, during 1894, it has treated the Chicago Railway Strikes and the Chino-Japanese War, and the amount of light it was able to throw on Korea the instant attention was directed to that little-known country, are examples of its almost boundless resources. Julian Ralph, the distinguished writer and correspondent, has been sent to the seat of war, and there joined by C. D. Weldon, the well-known American artist, now for many years resident in Japan, who has been engaged to co operate with Mr. Ralph in sending to Harper's Weekly exclusive information and illustration.

During 1895 every vital question will be discussed with vigor and without prejudice in the editorial columns, and also in special articles by the highest authorities in each department. Portraits of the men and women who are making history, and powerful and caustic political cartoons, will continue to be characteristic features. This Busy World, with its keen and kindly comment on the lesser doings of the day, will remain a regular department.

FICTION. There will be two powerful serials, both handsomely illustrated—The Red Cockade, a stirring romance of olden days by Stanley J. Weyman, and a novel of New York, entitled The Son of His Father, by Brander Matthews—several novelettes, and many short stories by popular writers.

Send for Illustrated Prospectus.

The Volumes of the Weekly begin with the first Number for January of each year. When no time is mentioned, subscriptions will begin with the Number current at the time of receipt of order.

Cloth Cases for each volume, suitable for binding, will be sent by mail, post-paid, on receipt of $1.00 each. Title-page and Index sent on application.

Remittances should be made by Post-office Money Order or Draft, to avoid chance of loss.

Harper's Magazine IN 1895.

The Simpletons, a new novel by Thomas Hardy, will be begun in the December Number, 1894, and continued to November, 1895. Whoever may be one's favorite among English novelists, it will be conceded by all critics that Thomas Hardy stands foremost as a master artist in fiction, and the Simpletons may be expected to arouse enthusiasm not inferior in degree to that which has marked Trilby—the most successful story of the year. Another leading feature will be the Personal Recollections of Joan of Arc, by the Sieur Louis de Conte, Her Page and Secretary, under which guise the most popular of living American magazine writers will present the story of the Maid of Orleans. In the January Number will appear a profusely illustrated paper on Charleston and the Carolinas, the first of a series of Southern Papers.

Northern Africa is attracting more attention than at any other time since it was the seat of empires. The next volume of HARPER'S MAGAZINE will contain four illustrated articles on this region, and three of them will depict the present life there. Julian Ralph will prepare for the MAGAZINE a series of eight stories, depicting typical phases of Chinese Life and Manners. Besides the long stories, there will begin in the January Number the first chapters of A Three-Part Novelette, by Richard Harding Davis—the longest work yet attempted by this writer. Complete short stories by popular writers will continue to be a feature of the MAGAZINE.

Send for Illustrated Prospectus.

The Volumes of the Magazine begin with the Numbers for June and December of each year. When no time is mentioned, subscriptions will begin with the Number current at the time of receipt of order. Cloth cases, for binding, 50 cents each—by mail, postpaid. Title-page and Index sent on application.

Remittances should be made by Post-office Money Order or Draft, to avoid chance of loss.

Look to Your Interest, People.

Big Slaughter in Wall Paper.

MY PRICES RANGE FROM 12c. TO 30c. PUT ON WALL. GILT 20c. TO 25c. ALL PAPER 8 YARDS LONG

These are not living prices. You may say how do I live. I have no rent to run a store and fuel, &c., and do all of my own work. I don't pay any hands one year to do three months' work in season. This is a chance to get papering done cheap. Take advantage while you have a chance. I will do as before,

Guarantee All Work

done by me. I can give the best references in the county.

There has been a great deal said about me being a ascab workman, but it was only said by those who can't compete with me in price and workmanship and who are afraid of me—never by a party that I did work for. Write for sample and price, or I will come to see you in person and tell you what your job will cost. I can be found 300 yards from the limit of Westminster on the Littlestown turnpike.

Thankful for past favors,
Very Respectfully,
