SATURDAY, APRIL 20 1895.

The Democrats in this county who are confident that all that is necessary to a Democratic victory in November is the closing of the breach between the factions, may find themselves very much mistaken. Many persons who have heretofore voted the Democratic ticket are realizing that the policy of the party is not for the best interests of the country, and will show their independence of the party lash by voting with the Republicans. The Democrats who look upon the matter in that light are not of the class who can be influenced by hope of petty rewards, or fears of political ostracism, which are generally potent factors in keeping the aspiring in line. To them the welfare and prosperity of the country are of more importance than small personal ambitions. The bugaboo of "negro equality" will no doubt be paraded for all its worth, as a scarecrow, but it has been worn threadbare and has lost its power to alarm. The result of two years of Democratic national administration and legislation are too serious to permit the continued support of thoughtful men who are free from partisan prejudices, and there is no reason why Carroll county should prove an exception to the effect of that cause, which is changing Democratic to Republican supremacy in many portions of the county.

GENERAL STATEMENT OF THE Financial Condition of the City of Westminster, from May 16, 1893, to May 21, 1894.

To the Citizens of Westminster:

I herewith submit to you a general and a detailed statement of the financial condition of the City of Westminster for the fiscal year beginning on the 16th of May, 1893, and ending on the 21st of May, 1894. During the year the Council endeavored to administer the affairs of the City upon the strictest economy, but as the statement will show, they were compelled to spend a great deal of money. The city's needs are daily growing and will continue to grow as years roll on. It gives me great pleasure to state, however, that the city is gradually getting out of debt, and if the plan as laid down by a former Council is strictly followed the city will have sufficient money to meet its bonded indebtedness. The beginning of course will appear small, still, the step, however small, is in the right direction. Every council with whom I have had the honor to be associated in the last three years, seemed always to have the best interests of our little city at heart, and everything connected with its government has received from them the closest scrutiny.

For the purpose of bringing the financial condition of the city closer to you, so that whenever any question arises affecting the expenditure of money, you may be able to act intelligently upon the same, I have prepared the following statement, showing the several amounts which the city is compelled to pay before one cent can be spent for improvements, cleaning streets and numerous other expenses incident to a city of our size:

1. 4½ per cent. interest on $25,000.00 10-20 Bonds ... $1125.00
2. 5 per cent. interest on $1,900.00 Bonds, redeemable at pleasure of City ... 95.00
3. Sinking Fund ... 1,000.00
4. Water Company out of levy of 1893 ... 1,019.51
5. Lighting streets,—not including lamps, lamp posts, and expense of 3 or more lamps, situated on alleys, and lighted by residents ... 1,200.00
6. Salary of Clerk and Tax Collector ... 360.00
7. Salary of Bailiff and Street Commissioner ... 360.00
8. Salary of Mayor ... 100.00
9. Salary of Five Councilmen at $20 per annum ... 100.00
10. Office Rent ... 25.00
11. Appropriation to Fire Department during the year ending May 21, 1894 ... 175.00
12. 6 per cent. interest on note of $400, due Meadow Branch Turnpike Co. ... 24.00
13. 4½ per cent. interest on note of $1,000.00, due Sinking Fund of the City, for year ending May 21, 1894 ... 45.00

Total amount of fixed charges ... $5,628.51
The amount which the City was entitled to receive during the year ending May 21, 1894 ... $8373.27
The amount of fixed charges were ... 5628.51

Balance ... $2744.76

From the above statement it looks as if the city should have had the sum of $2744.76 to spend for improvements, &c., during the year ending May 21, 1894. If you will, however, look at the statement of Resources, you will find that the sum of $2565.96 was still in the hands of tax-payers. The statement for the year ending May 16, 1893, shows, that the sum of $2490.26 was uncollected. The latter amount has been reduced, of course, or the city would not have had any money during the year ending May 21, 1894, with which to meet incidental expenses, or to pay the costs of improvements, &c. Allowance must always be made for more or less abatements, insolvencies, &c. Nearly one third of the taxes are uncollected, at all times, and if any additional expenses, in the way of fixed charges, are added to the city's expense account, it will compel the Council to move very slowly in improvements. Whatever is added to the city's fixed charges must come out of any money on hand which would be used for improvements, cleaning streets, &c. Back taxes come in very slowly, hence the reason the Council is nearly always "strapped" for money for improvements.

As this will probably be the last time I shall have the honor to communicate anything to you as Mayor of our little city, I desire here to say that during my term of three years, I have at all time been treated by you with the utmost charity. My mistakes, which were probably many, have been treated by you as those arising from bad judgment and not as those arising from a desire to do mischief. For which treatment and for many courtesies extended to me I desire to return to you my sincere thanks. When my term shall expire I hope to be able to turn over to my successor a clean docket. Whoever my successor may be he will find the office of Mayor of our city occasionally very trying, and he will be compelled to devote considerable time to its duties if he desires to discharge those duties faithfully. One of the exactions imposed upon the Mayor's office by the act of 1890, that of directing the labor performed by persons committed under said act, is not one contemplated by me when I first assumed the office. The next Legislature should change the law and place the responsibility upon some one other than the Mayor.

Again thanking you for your many courtesies to me, I have the honor to be

Your Obedient Servant,
JOSEPH D. BROOKS, Mayor.

Phosphate! Phosphate!

What is the best or most paying crop for a farmer to raise?

The answer, as a rule, is the crop planted in the Spring--

CORN, OATS, OR POTATOES.

The Spring is nearly with us and we wish to call your attention to the most available Fertilizer you can use on your SPRING CROPS.

We have studied the FERTILIZER BUSINESS for years

and are prepared to give a farmer anything he wants in the way of Fertilizer. We especially recommend our

CHAMPION DISSOLVED BONE

FOR POTATOES OR CORN, AND OUR

FOUR X BONE FOR OATS.

We are especially prepared to furnish an excellent article of Fertilizer at very low prices. Our goods have been used by farmers in all sections of Carroll county and have given the best of satisfaction.

Use the Best this Spring

and call on us and get the best and your crop will be satisfactory and pay you well. Very respectfully,

N. I. GORSUCH & SON.
