Dromona Jany the 8th 1817

I am a few weeks My Dear Sister in possession of yours of the 8th of August last & wrote you the 11th with Invoices of all yr orders which goods I hope you have got ere this I saw Dr Bryson a few days ago & was telling him of yr letter saying you were talking of being a little tired of farming he said he was very sorry for that & expressed a fear that you would return to business again which he said you were not adapted for being too honest & at the same time too fond of speculation he said he would risk his existance that if you begin business again you will lose all you have I must own I am something of his opinion especially in running risks my speculations to Canada did very well at first but have since turned out very badly lose my money in at present locked up there I am much afraid will never be unlocked however I hope to be able to make it out tolerably well as my plan brings me in what will do with strict economy My son & his family are with me at present & hope will stay a few weeks before they go to their own place they are all in good spirits & happy at the thought of being settled in Ireland for life we hope sister Davison will be with us in the course of a year I think you give some little hopes of visiting us it wd give us much comfort to have you here I dare not say too much but think there is a possibility if you were to come over that Anne & I might go with you & spend a year or so she never gives anything like a consent but perhaps if you were to come you might help to prevail & as you say I think it might be useful to my health but it is hardly worth while

Dromona 5th March 1817
Dear Mrs Clotworthy
Barbarick Tanytown
Baltimore

Mr Clotworthy Borne
