Dear Father

Baltimore Feby 7 1847

I have not yet received any letter from home, But yesterday I received one from Ron who said she had seen you & you & the family were well. It seems Mr Scanlan wrote to me sometime since concerning Hops & the letter not coming to hand I was afraid he might think it inattention in me not have I yet received it as I wrote to day which I hope will clear all up. You were speaking when you were here if I could find any place to lodge & remaining here another quarter but I think it would be better for me as I have made myself pretty well acquainted with French & the higher branches of Mathematics to have school I at home to make myself completely master of every thing in the Mathematical line that I have learned I also not to lose sight of my French & Latin the last of which I have no time to attend to. Euclid, Mensuration, Surveying, Algebra & Mathmetic I think I could make myself
