Completely master of in about three months
I also attend to my French & Latin spare
of the day. You must not suppose if I come
home with these intentions that I will
spend my time as I do generally in Vacation
but I will allot particular parts of the
day to attend to particular things & let
nothing take my attentions from them.
As I am not very well versed in History
of which I see the Up daily I would have
sufficient time in the evenings & at night
to attend to that also. Expecting that you
will acquiesce in this desire I have obtained
from Mr Gunshaw a list of Books most
necessary for me to attend to, the most
of them I suppose you have. Perhaps
I will have to shift my quarters before
Mr G goes, as I think it will be necessary
on account of them making preparations
for their departure shortly. I supposing
that you will comply with the above
I will just go with Mr G as it will be but
a short time, to a boarding house I suppose.
Give my Love to all the family & believe
me your Dutiful Son C Birnie
