Mr C. Bernie
Third County

Baltimore 11 July 1817
Elect Hollingsworth

to send him away Empty - It is the rule in this Country when the come from such a distance to send Cash or Pay for them However I shall leave you to act as to you may seem most proper.

I would recommend it to you to tell the People who has got the Ale to keep it in a Cellar from Freezing as that would ruin the finest Beer on Earth I have told Colonel Snooke to do the same I have sent Six Whole & two Half Barrels full of a Nice Ale as ever was made. I would also recommend not to give to much of it to any one Person least the demand might be slow and get Sower on their Hands - I am sorry Mr Robinson could not let you have the Clover Seed. I shall speak to him on his return from Baltimore not to neglect you - and when he has any Seed to send it down to my House -

I shall always be happy in hearing from you, in Spring my Stock may depend on being regularly Supplied with good Bottled Porter - I sent the Waggon off Yesterday to Baltimore under the Command of Capt. Levin Dutton who appears to do well - I have agreed to give him $8 p Month & $4.50 Expences to & from Baltimore -

With best wishes for your & Family I remain Dear Sir
Your ever Sincere
