Baltimore 28 Feb 1817

Dear Sir

I have rec^d your favour of 26th Inst. and am happy to say Mrs Brown has so far recovered as to enable us to anticipate a time for our departure for England, we propose going in the Ship Belvidera now on her passage from Cadiz, and it will give me pleasure to render your Daughter any assistance in my power. The Belvidera is owned by ourselves and will be despatched in three or four weeks after her arrival which we are looking for daily, we have no letter from Cadiz later than Nov. so that we are ignorant as to her probable time of her leaving there, but as she is the first spring ship for this port we may reasonably calculate on her arrival before the 10th of the ensuing month.

The Passage money is 30 Guineas, this is altogether at purserate of the Captain, and
