For the next public occasion —

On the sale of my sheep Etc. I shall not join advancing it with some attention as formerly as I am satisfied it must not be a good business altho wool is one of less price than some years ago — and the large breeders without demand the full blood may never now be sold at any good profit —

To keep myself from being over stocked as my stocks increase very fast on me I sell off every year some of my breeders less mixed than the full mixture — I have now none left of less than 3/4 blood, and next Summer as soon as they have weaned their lambs I shall offer for sale about 50 very fine and young 3/4 blood Ewes — if you like to have them or any part of them — let me hear from you — I will give them to you at a low rate —

Yours very truly
D. Barnes
