the Journey to some Account I have borrowed a Horse here which with my Own takes down an Empty Waggon I will bring up a Load of Boards a Lumber Yard is much wanted here, Inch boards clear Stuff sell readily at $5½ p Hundred which leaves a clear Profit of $10 p Thousand at the least, after paying $2 p Hund^d for Hauling. as soon as I get a little money gathered I intend doing something in this way as it will not interfere with my other Business — I sold 3 Loads in a very short Time that Mr Baker brought up — If the Tony Town people want Porter I can accommodate them almost as soon as they please by having a Light Waggon & 2 Horses I can send it any where it may be wanted, I could have sold more Beer during the Winter if I had the Means of sending it to the Country James is tired of waggoning & means to sell the large Waggon & get a light one for 2 Horses. — All here are well. If Mr Sowers is wanted at Uniontown send for him as we could do very well without him here, he has done much mischief. but no good that I know of since he came — yours truly A Thomson
