most assumption I can give you of the manner
the wheels run and are constructed I think
if you would let me send you a neat Cart
Such as the Farmers use here all complete
which would come to about £20. I would recommend
it with Harrush &c you Nabaus would then
say on its passing thro is Squire Birnus English
Cart I have never seen any thing so complete
before I wish I had one of Jonny Bulls like
wise. as to the Stallion you mention I could
get a Picture of a Horse for about 40 to 50
thro years old what the expense of taking
him over I cannot now say never having
made the enquiry I think your Friend John
in Baltimore could inform or make the
enquiry better off the owners of Ships in
Baltimore coming here I would much like
to ~~[illegible]~~ see a Horse and Cart Shipped here
for you on looking over your Letter you say
your Cart wheels stand narrower before than
behind and stand the same before as behind.
My Cart Horse ~~is~~ still the Bully of Liverpool
I wish I could send him and his Cart Harrush and
all complete over some day in a Balloon
I think he would surprise to People
about Beaubrauch. James Whittle has been
unfortunate and has not been doing any
thing for 18 Mos he is still here & looks very
poorly Luke Robinson & Wadle are also gone
I suppose Mr Napier would inform of the wonderful
disasters that have taken place in Belfast
amongst the folks there I was once going to give

you the Names of all those who have failed but it
would be too much for a Letter I merely say
that the whole has failed except Hugh Williamson & Son
Adam McClean that the half of the Tower Belongs to
had to make a Pause. It gives me great pleasure
to hear of the property you have got may you & your
Line long be happy to enjoy it. I think you
should see it and come over here and enjoy it
if not you will be only pandering away your
time in your Woods while you Like here we live
like Princes see the word enjoy it. I had the
Woman a few weeks ago to Ride in the Carriage
which Boney had in Russia and through many
of his Campaigns and which was taken Horses and
all at Waterloo Coach with all its Splendor she
left it Horses Coach man and all attendance we
excited here for some weeks. we have had none
of the French Generals here of Late amongst the
Marshal Soult who Bothered Wellington so long
in Spain there was on a Tour accompanied
by some of the first Noblemen in England
when you receive your Crates and examine
the contents I will expect to hear from
you and would be very happy to keep
up a Correspondance with you, so long
as you keep from abusing John Bull
and crying up your fine Government. Inland
betwixt you and I. I think it a very Feeable
one ours are stinck and by God none on Earth equal
Mr Steele & Jammaly join in Best wishes
to Mr B & Jammaly with my dear Sir your
ever most Linear friend Matthew Steele

I have not yet given up the hopes of seeing a Visit from you
