Baltimore 6 June 1848

Dear Sir

On my return from your place I made all the inquiry I could in respect to the sale of wool when I found Mr. Tinman was not inclined to purchase but could not find any in want of that article. I got 4 barrels Irish apple Potatoes and had them left at Messrs. Harris & Donaldsons from which I thought they would find an opportunity to send them out to you but on my return from a another trip in the country was sorry to find they were where I left them, if there was any of your neighbours coming in that you could make care for them I would be glad as it is uncertain when they may have an opportunity to send them to you from that house and it is full time the were in the ground
