you & your affectionate family as often as we might have done whilst less remote from Bear-Branch, yet, still, we do not deny ourselves the satisfaction of indulging the hope of meeting occasionally — Business or amusement throws us about in a strange way. If I do not see you here, I invite myself to pay you a visit, at no very distant period — I contemplate a general tour next Spring on a Geographical scheme — I'll tell thee that I have nearly finished my History of England, that it has been examined in Baltimore, & decidedly approved of, that I shall shortly put it to Press, & that when Printed, I shall have the honour of presenting him with a Copy. Mrs G. & Charlotte join me in affectionate remembrance to all the family —

Yours very sincerely

Wm Grimshaw
