on 13th April, I have been to see it, and am of opinion it is very ill calculated for the business not having a sufficiency of Water and even that ill flavored - there is a Mr Scott who has a Vineyard nearly opposite our House with abundance of fine Water - as he is doing nothing he has introduced the matter to me. I think it most likely he will set a Brewy going - and I sincerely hope will arrange matters with me for Conducting the same - at least this should not be the case and that I wish to have all my Brains at work, I beg you will write to Mr Hollingsworth who I understand is going to erect a Brewy in Annapolis, as an application will come much better from you than from me. I shall also write to Mr Holmes in respect to the Brewy at Chillicothe - so that you may see I am determined to leave nothing in my part undone in the mean time I am on the lookout for your Colon - as I cannot forget his kind attention to me when in Baltimore — Words cannot express the attention and kindness shown us by Mr & Mrs Mc Creery while we were from Monday to the 1st Instant - and Matilda got an invitation to Mr Kerr's where she remained till we got to our new Lodgings - he is the delle of yourself a true hearted Irishman and from whom we have found great kindness — I suppose you have heard of the misfortune of poor Schriver - who has made off — and was seen on his way to Pittsburg - I fear my much respected friend Robinson will suffer - so that you may see there is no Man exempt from trouble - I went to Church on Sunday and heard a very good discourse from the Revd Mr McClane.

We had a Letter from Sally - and from its Contents we are happy to hear Mrs Bernie is quite recovered God Continue you and her, with every one of your respected Family in my Comfort this World can afford - As you and your Flocks are our Constant thoughts, how does the dear little Lamb come on with their attentive Shepherd - tell Mr they to put his foot in the Stirrup and mount Bay and come and see us I have a good Stable - and will get some Hay - where he and his Horse will get a hearty welcome when you or any of the family, are in Town he is kind to remember us affectionately to Mrs Read & Daughter, also Mr & Mrs Derby - not forgetting my respected friend Counsellor Read I have not as yet heard from Mr Cox - I suppose I have time yet I will Conclude with Jane & Matilda's love with mine to Mrs Bernie and Ladies receive

A.S.B.

Believe me Dear Sir
Your ever Affectionate
Sam. Scanlan

If you are not acquainted with Mr Hollingsworth - my likely Mr Read is - who I am certain will do the needful.
