Dear Sir

As Mr Stewart has sold off all his effects here, and has given up the business of Piano forte making — and has advertised his intention of quitting this country I beg to inform you, that I have, at his sale yesterday, purchased four splendid piano-fortes — one is a horizontal Grand Piano (original price $800) which I will sell for $630; another is a three stringed Harmonic upright (original price $700) I sell at $600; another a two stringed Harmonic upright (original price $600) I be sold for $500 — an elegant ornamented square 6 octave piano (original p. $375) I sell for $340 — and I have now on hand the second hand piano which you went to see — just in as good order as when you saw it — that I will sell for $180 — If you should wish to become a purchaser of either be so good as give me early information, as I expect they will not all remain on my hands long — and particularly as Mr Stewart leaves this place —
