Dear Sir I Received your favour of the 17th Inst
It is Impossible for me to give you Direction
what is best for you to do with your butter,
you Certainly ought to be the best Judge of
that your Selfe, you know it is not in my
line of business to purchase butter in the
Summer Season, because the weather is too
warm and it will not keep, you Ought to endeavour
to get a trusty person to come to Market once
a week with your butter, and you would
then get the highest prices, I am affraid
if you put it up in kegs you will get
very little for it next winter, as provisions
of all kinds will be very low, you might
come down here and make a Contract with
some of those persons who deal in butter Altog-
ther, and they would Receive it as you would
~~fix~~ send it, Times Dull and I am in very
bad health allmost One Third of the Merchants
here are Insolvent! Yours Respectfully Robert Harlign

Robert Harlign
