Baltimore 21st Oct. 1809

Dear Sir

Your favour of the 12th Inst. rec.d last week — since I saw you I have been very unwell, & have taken a good deal of Medicine, however I am free from the bowel complaint, — I saw Mr Wm Gunn & delivered your letter to him, he promised to exert himself, but as yet without any prospect of success — from my present state of health I find it would be rather unpossible for me to leave the Feeling & what I can do at this dreaming Winter God Almighty only knows — I have used every exertion to get a situation of any description but from the depressed state of business I can hear of no Vacancy — I return thanks for the letter —
