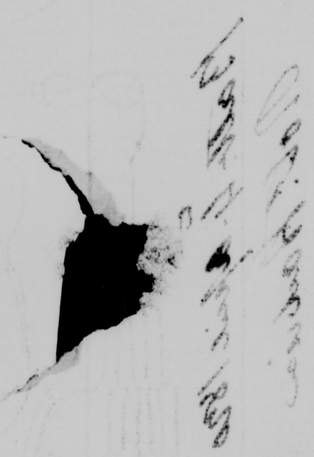
thanks, if you have not a sufficiency of it, you have plenty of Sea Tinna, which in my opinion although a poor Philosopher is far superior to the gold & Silver trash!! With respect to "title" and poverty not agreeing well together!! its but two often the case the are related to each other, but believe me Dear Sir, when I gave you the title of esquire such an idea was far from my mind, but hereafter or untill such times as you cease from "Maurmuring" for the want of cash, I shall always when addressing you do it in the plain quaker style, least you should be offended. My young Man called on Mr Jones respecting the Sea, all is right, he only sent you 2 ttes Second quality Rye flour has been sold at £2 7s 6d and if your country "folks," would leave off cumming to Battons for 8 month or six weeks, us citizens would be obliged to give you more for your "Nations" My opinion is times are at the worst, and if the are of course the will get better. I shall advise you from time to time during the Summer respecting the flour &c &c With great respect, believe me to be dear Sir, your affectionate friend &c &c


Robert Harlizon
