WESTMINSTER, MARYLAND.

W. L. W. Seabrook, - Editor.

Entered at the Postoffice at Westminster, Md., as Second-class matter.

SATURDAY, MAY 15, 1897.

State Senator James M. Sloan, of Allegany county has been appointed Assistant United States Treasurer in Baltimore, as the successor of Ormond Hammond, deceased. The appointment was made upon the recommendation of Senator Wellington and the Maryland delegation in the House of Representatives, and was confirmed on Thursday.

The Baltimore *Sun* has been publishing, from time to time, communications expressing the opinions of the writers as to "the two most worthy Marylanders to be honored by statues in Statuary Hall at the National Capital in Washington." Among those suggested for this honor are Governor Thomas Johnson, Cecilius Calvert, S. Teackle Wallis, Edgar Allen Poe, Charles Carroll of Carrollton, Francis Scott Key and Roger B. Taney, the last three being the favorites. With the large number of distinguished men whose names adorn the history of this State it would appear to be utterly impossible to make a fair selection of two who might fairly be designated as the most worthy. The names of such eminent men as Wm. Pinkney, Mordecai Gist, Reverdy Johnson, Thos. Holliday Hicks, Francis Thomas and many others equally distinguished are not mentioned in connection with it, and no matter who might be selected, others would be held by many equally worthy. About the most sensible course would be to leave Maryland unrepresented in Statuary Hall and permit future generations to select their own favorites, by acquainting themselves with the history of the public men of the Commonwealth from its foundation.

A HICKS MONUMENT.

The Baltimore *American* of Thursday says that the committee of the German-American Lincoln Club, of that city, having the Hicks monument matter in charge, reported to a meeting of the club, on Wednesday, that "Mr. Leonard Hoffman, of the G. A. R., and Messrs. Louis Hoffman and Edward H. Pfund, of the club, inspected the monument, stored at a marble yard, corner Mosher street and Myrtle avenue, and that a combined committee of the G. A. R., German Historical Society and German-American Lincoln Club will make efforts to procure a suitable public place, after the monument has been renovated. The monument, it is said, possesses great historical value."

Of all the distinguished citizens of Maryland none ever rendered greater service to the Commonwealth than Thos. Holliday Hicks, whose devotion to the Union was the principal obstacle against the secession of the State in 1861, and saved her from being ground to atoms between the upper and nether millstone. The memory of no Marylander ever more thoroughly deserved monumental perpetuation.

A Telephone Decision.

The Supreme Court of the United States has decided, in the case of the Government against the Bell Telephone Company, that no fraud was shown in the delay which attended the granting of what is known as the Berliner patent. Application was made for the patent in 1878, but it was not granted till 1891. This leaves the patent in force until 1908, unless, indeed, application was made previously or concurrently for it in foreign lands, where it has expired. In that case, according to the principle laid down in the Bates Refrigerator case by the Supreme Court, the patent ceases to be exclusive in this country. U. S. District Attorney Marbury, counsel of the Home Telephone Company of Baltimore, claims, too, that the Bell Telephone Company has been guilty of laches in failing to prosecute any of the numerous competing companies in the United States, which have gone into operation and spent millions of dollars in the construction of telephone lines, and that it cannot now successfully interfere with such companies for the reason alleged.

There is doubt, too, it is said, as to just what principles in telephony are covered by the Berliner patent, other patents, which have expired, being incorporated with it.

Charles E. Fink, Esq., president of the Western Maryland Telephone Company of Carroll County, and J. M. Reifsnider, Esq., its counsel, both express the decided opinion that their company is not affected by the decision. The excellent service this company has provided in this county has created a convenience for the people that has become a necessity, and it is gratifying to have the confident opinion of its officers that no danger of its interruption is to be apprehended.

The Bell Telephone people have not yet been heard from on the subject, except in an intimation that it will seek to extend its lines under the decision, into territory now occupied exclusively by local companies.

The delegates and visitors to the fifth annual convention of the Maryland State Firemen's Association which will be held in Annapolis on June 9, 10 and 11, will be entertained on the morning of June 9, in Baltimore, by the Veteran Firemen's Association, of that city. The visitors will be requested to reach Baltimore at a certain hour in the morning of that day, and will be met at the various depots by committees. A procession will be formed on the City Hall Plaza, and the line will march to a steamer on Light street wharf, which will convey them to Annapolis. It is very probable that the Baltimore Fire Commissioners will be prevailed upon to send several pieces of apparatus to Annapolis, in order that the delegates may be treated to an exhibition.

Col. Myron J. Rose, of Baltimore, has been reinstated in the Internal Revenue service, by Commissioner Miller, and assigned to duty at the Hannis distillery. His reinstatement was made under the law governing the reappointment of ex-Union soldiers.

For the SENTINEL.

LETTER FROM ILLINOIS.

I have no doubt a letter from this North Central State will be of interest to at least some of the readers of your highly esteemed paper. Having been engaged in writing for the SENTINEL for more than twenty years, it would seem strange not to do so this summer; and not being able to write *Harney Items* I will endeavor to give the many readers of the SENTINEL some facts from the West.

I arrived in Morrison on the 28th of April, and found quite a change in the climate. The season here is about two weeks behind Northern Maryland, and the farmers are about three weeks behind Maryland with their work.

Morrison, a city of three thousand inhabitants, is the county seat of Whiteside county, in the north-western part of Illinois. The Chicago and North Western R. R. runs through the city, and from eighteen to twenty trains pass through here every day. The C. & N. W. is one of the main lines from Chicago to the Pacific. The long trains of cattle cars that pass here, from the West, are double headers; and sometimes I think the last car will not come. It is no unusual thing to see from sixty to seventy cars attached to one train. The road is straight and has no grades of any consequence. There are no deep cuts as we have them in Carroll county. Morrison is one of the most beautiful cities to be found anywhere. Situated, as it is, in a rich farming district, the city is composed in part, of many retired farmers who immigrated here fifty years ago when the surrounding country was a vast wilderness. In conversation with an aged gentleman, the other day, who came here in 1846, he told me that there were no Indians in the immediate neighborhood, but that he saw in many places where they had raised corn. The streets of Morrison are wide, the houses standing back with beautiful lawns in front. Morrison has all the modern improvements except street cars. It is beautifully lighted with electric lights, has excellent water works and the drainage is unsurpassed. North of Morrison the country is quite hilly, while on the south it is level. East and west you can see for miles and miles over beautiful farms and lovely homes. Land sells at $45 to $80 per acre. The soil is quite dark, in some places nearly black, and very productive. I never saw such fields of grass. Such things as lime and phosphate are unknown as fertilizers. Some farmers manure their land while the majority try to make as little manure as possible. A phosphate agent here would starve.

For fear of occupying too much space or wearying you readers, I will close for this time. In my next letter I will give the methods of farming and the means by which farmers make money or, at least, try to do so.

J. A. ANGELL.

May 7th, 1897.

John A. Caler, a young man who was convicted in the Circuit Court for Allegany county of false pretenses and sentenced to the penitentiary for fifteen years, jumped from a train of the Baltimore and Ohio Railroad at Hanover Switch, a mile and a half west of Washington Junction, on Tuesday morning, while being taken to that institution by Deputy Sheriff Sanders. The train was running at the rate of fifty miles an hour, when Caler, who was handcuffed, suddenly struck the deputy sheriff a powerful blow in the stomach and then plunged through a window. He struck the ground head foremost, bounded back against the car and then fell on the adjoining track unconscious, with a fractured skull, his face battered almost out of the semblance of humanity and his body badly bruised. He was picked up and taken to the Maryland University Hospital in Baltimore. Caler had warned the officers of the law that he did not intend to be taken to the penitentiary, but would escape or commit suicide at the first opportunity. His leap for liberty cost him his life, as he died on Wednesday.

State Fire Marshal E. J. Lawyer paid a visit to Southern Maryland this week on matters pertaining to the organization of some new companies in time for the annual state firemen's convention, which meets in Annapolis next month. Mr. Lawyer has received many flattering endorsements of his plan to organize a national association. The project seems to meet with approval from firemen in many of the leading cities, many of whom have written for more details. The project will be launched at the Annapolis convention. Mr. Lawyer expresses himself as being very much pleased with the prospects of having every town in the state, particularly on the Eastern Shore, under fire protection.

The annual conference of the Maryland District, African United Methodist Protestant Church, met at Melvale on Wednesday Rev. C. W. Sides, formerly of Westminster, presiding. Religious services were conducted by Rev. B. H. Knight. Thirty one ministers and eighteen delegates were present. Rev. P. H. Green, of the African M. E. Church, was introduced to the conference, and made an address. The Lord's Supper was administered by Rev. E. W. Scott, assisted by Dr. C. H. Williams. The address of welcome was made by Rev. E. W. Scott, and Rev. C. W. Sides responded.

The managers of the State Insane Asylum No. 2, at Springfield, held a short meeting Wednesday morning in Baltimore, and then went out to the Spring Grove Asylum to attend the centennial exercises of that institution. State Treasurer Thomas J. Shryock presided, and some routine business was transacted. Dr. George H. Rohe, superintendent, reported good progress in the work of erecting new buildings, and said the farming operations were well advanced.

The dwelling of Benjamin Eyler, between New Midway and Legores, Frederick county, was destroyed by fire Tuesday night. Nearly all the contents of the house and several outbuildings were burned. The fire was of incendiary origin. The loss was $800, and the insurance $500.

Heavy snow storms prevailed in England, Scotland, Germany, France, Austria and other portions of Europe on Tuesday and Wednesday. The weather was as cold as in November, and great damage was done to fruit trees.

The eleventh annual encampment of the Maryland Division, Sons of Veterans, closed its two days' session at Annapolis Wednesday afternoon. The next encampment will be held at Hagerstown in June, 1898.

Rev. S. S. Miller, formerly pastor of, the Reformed Church, of Mt. Pleasant Md., has assumed the superintendency of the Daniel Stein Memorial Home for aged Ministers, at Myerstown, Pa.

State Board of Health.

Great interest was manifested in the meeting of the State Board of Health, which was held in the Firemen's Building, this city, Thursday afternoon, and was attended by numbers of prominent citizens of the town and county. The members of the Board present were: Dr. S. Chase DeKrafft, president, of Cambridge; Dr. John S. Fulton, secretary; Dr. James F. McShane, Health Officer of Baltimore; Dr. W. B. D. Penniman, State Chemist, and Dr. John Morris, of Baltimore. They arrived at noon and spent several hours in visiting and inspecting the sanitary condition of the court house and alms house; they also visited the wards of Westminster Water Company.

At the meeting Dr. DeKrafft presided and the proceedings related chiefly to sanitary matters in this city and county. The analysis of the water used in the public schools of this county was the first subject introduced. State Inspector of Food and Drink Charles N. Mitten reported how the samples were obtained, and Dr. Penniman reported the results of the anaylses for the following schools: Union Bridge, New Windsor, Taneytown, Frizellburg, Manchester, Shades, Meadow Branch, Uniontown, Carrollton, Bird Hill, Mount Pleasant, Union Mills, Silver Run, Cranberry, West End of this city, pump, all of which were bad; Medford and Finksburg very bad; Hampstead and Mountain View, probably good; Sandy Mount and Spring Mills, fair; Pleasant Gap, Central Hall, Smallwood, Morelocks, Bark Hill, Double Pipe Creek and Springdale, good. Considerable discussion was indulged in concerning the right of the Board to decide upon the question of the purity of beer, Dr. Morris taking the negative side and being opposed by several of the other members. Dr. Fulton stated that adulteration is confined practically to bottled beer, which is largely used by invalids and delicate persons. He urged the necessity of analysis. Dr. Penniman reported that of 13 samples analyzed two were found to contain salicylic acid.

Dr. J. Howell Billingslea, health officer for this county, asked the opinion of the Board as to the power to prevent the use of live wells as cesspits, as is being done to a considerable extent since the introduction of flowing water into this city, by which the water in other wells is being badly polluted. The consensus of opinion seemed to be that successful prosecutions for the cause named were difficult. Dr. Fulton, Dr. McShane and other members of the Board stated as a fact that the use of live wells was little more deleterious than of dry wells, the evil effects of which might be greatly lessened by double bricking and cementing them.

Dr. Fulton offered the following preamble and resolution, which were unanimously adopted: "Whereas, The health of Westminster is exposed to great and increasing danger from the pollution of the soil and water by the present disposition of night soil; therefore, it is resolved that the State Board of Health recommend the Mayor and City Council of Westminster to pass an ordinance prohibiting the use of living wells as cesspits."

In reply to inquiries by the Board, Dr. Billingslea and Dr. J. W. Hering stated that the percentage of typhoid fever in this city had very much diminished since the introduction of flowing water. Dr. McShane related how typhoid fever, once greatly prevalent in the City of Munich, had been entirely suppressed by the establishment of water works and a system of sewage. Dr. DeKrafft testified to the large abatement of typhoid fever in Cambridge since water was introduced there.

A report to Governor Lowndes was adopted showing the disposition of the Emergency fund received December 17 last, of which $10.36 had been expended for antitoxin and the remainder, $989.64, will be returned to the Comptroller on the order of the Governor. The Board adjourned to meet at Easton in June.

Roseville Items.

The farmers are about through planting corn. The grain and grass look very favorable at present. According to the blossoms there will be an abundance of fruit in this vicinity. Arrangements have been made to place a new fence around the cemetery and cleaning up the ground which was not taken in before at Mt. Union U. B. Church, which will make quite an improvement when completed. The children's day service will be held at Mt. Union U. B. Church on Sunday, June 6th, at 10 A. M. It will be held in the grove near the church. The Y. P. C. U. is in a flourishing condition at present. Great interest is being taken in the devotional meetings, which makes it quite a success. It numbers about eighty members. Mrs. J. A. Barry has made quite an improvement by piping the water about one-third mile from a spring on her farm, walled in 8x5 by 3 feet and 15 inches in depth into the house and then to the dairy. The cleaning of fence rows, and the remodeling of fences, and the liming together makes a wide improvement. Mr. J. A. Barry, of Baltimore, visited this place a few days this week.

Frizellburg Items.

Fire destroyed a "brooder," containing 85 young Brahma chickens for Mr. David Shorb, last week. An early discovery of the fire prevented a dire conflagration which otherwise would have been inevitable.

Mrs. S. M. Bish was in Baltimore several days this week.

Mr. Sterling S. Snader, an intelligent youth of our community, left on Thursday morning for Connellsville, Pa., where he has accepted employment as a carpenter. Our good wishes go with him.

Mr. James Zacharias, of Baltimore, spent the early part of this week in this vicinity.

The arrangements are in charge of the social and music committee, and an interesting program will be presented each evening. Full particulars will be given later.

THE ONLY FLYING-MACHINE THAT HAS EVER FLOWN.

The only flying-machine that has ever actually flown—that is, maintained and moved itself in the air by energy generated in its own mechanism—is one lately constructed, after years of laborious and disappointing experiment, by Prof. S. P. Langley, Secretary of the Smithsonian Institution. The first full and the only authoritative account of this epoch-making invention will appear in McClure's Magazine for June, in a paper written by Prof. Langley himself, and illustrated with diagrams and pictures made under his direction. This is probably the most important magazine paper ever published in this country.

"IT IS THE BEST ON EARTH."

That is what Edwards & Parker, merchants of Plains, Ga., say of Chamberlain's Pain Balm, for rheumatism, lame back, deep seated and muscular pains. Sold by Joseph D. Zepp, Druggist, Westminster, and W. R. Rudy, Mt. Airy.

THE BEST REMEDY FOR RHEUMATISM.

From the Fairhaven (N. Y.) Register.

Mr. James Rowland of this village, states that for twenty-five years his wife has been a sufferer from rheumatism. A few nights ago she was in such pain that she was nearly crazy. She sent Mr. Rowland for the doctor, but he had read of Chamberlain's Pain Balm and instead of going for the physician he went to the store and secured a bottle of it. His wife did not approve of Mr. Rowland's purchase at first, but nevertheless applied the Balm thoroughly and in an hour's time was able to go to sleep. She now applies it whenever she feels an ache or a pain and finds that it always gives relief. He says that no medicine which she had used ever did her as much good. The 25 and 50 cent sizes for sale by Joseph D. Zepp, Druggist, Westminster, and W. R. Rudy, Mt. Airy.

The ladies of Pleasant Grove Sunday School, Sandyville, will hold their strawberry festival, in the grove adjoining the church, Saturday afternoon and night, June 5th. All are cordially invited.

The Westfield (Ind.) *News* prints the following in regard to an old resident of that place: "Frank McAvoy, for many years in the employ of the L., N. A. & C. Ry. here, says: 'I have used Chamberlain's Colic, Cholera and Diarrhoea Remedy for ten years or longer—am never without it in my family. I consider it the best remedy of the kind manufactured. I take pleasure in recommending it.'" It is a specific for all bowel disorders. For sale by Joseph D. Zepp, Druggist, Westminster, and W. R. Rudy, Mt. Airy. ma-1-1m

MORTGAGEES' SALE

OF A

Valuable Hotel Property,

In Westminster.

BY virtue of the power and authority contained in a deed of mortgage from Louisa J. Marsh and John Marsh, her husband, to William B. Thomas and Charles E. Fink, Mortgagees, dated April 1st, 1895, and recorded among the Real Estate Mortgage Records of Carroll County, in Liber B. F. C., No. 36, folio 390, &c., the undersigned mortgagees will offer at public sale, on the premises, on

MONDAY, THE 7TH DAY OF JUNE,

1897, at one o'clock, p. m., all that valuable Hotel Property, on the southeast corner of Main and Centre streets, in the city of Westminster, in Carroll county, Maryland, fronting about 60 feet on Main street and about 198 on Centre street, improved by a three-story Brick House, a two-story Frame House attached, containing 25 rooms; large frame barn and stable; this is one of the best hotel stands in Westminster, centrally located between the Railroad Depot and the Court House, and has enjoyed nearly all the country trade and is patronized by nearly all people attending court. This property would make a first class store stand.

Also at the same time and place the undersigned, by virtue of said power in said mortgage, will also offer at public sale a large lot of personal property now used in said hotel, namely: 18 sets of bedroom furniture, including in each set, bed, bedding, washstand, bureau and chairs; one set of dining-room furniture, including tables, buffets or sideboards, chairs, stove, china and tableware; one set of parlor furniture, (hair cloth) including sofa, chairs, centre table, standing clock and stove; one set of office furniture, including chairs, table, desk and stove; one set of barroom furniture and fixtures, and one set of kitchen furniture, including tables, chairs, range and cooking utensils. Mr. John Marsh, the present occupant of the property, will cheerfully show it to any one desiring to look over it.

Terms of Sale for the Personal Property: All sums of five dollars and under, cash; on all sums above five dollars a credit of six months will be given upon the purchaser giving his note with approved security bearing interest from the day of sale.

For the Real Estate:—One-third cash upon the day of sale or upon the ratification thereof; one-third in one year and one-third in two years from the day of sale, the credit payments to be secured by the notes of the purchaser with approved security bearing interest from the day of sale; or all cash at the option of the purchaser.

AN OPEN LETTER.

WESTMINSTER, April 10, 1890.

Mr. Jos. B. Boyle:

Dear Sir:—For many years I have suffered intensely, on taking cold, from a very troublesome cough, for which I have used a number of various remedies, and obtained but temporary relief. During the past Spring I was again troubled with the same cough, and through a friend was induced to try your Pectoral Syeup, which not only gave almost intant relief, but a permanent cure. It gives me great pleasure to say that I believe it to be the best remedy I ever used for the purpose for which it is recommended. Hoping that any person afflicted as I was may be fortunate enough to give it a trial, I am,

Truly yours,
EDWARD LYNCH.

For sale by all Druggists and merchants in the county. Price 25 and 50 cents a bottle. Take no other. fe-20-tf

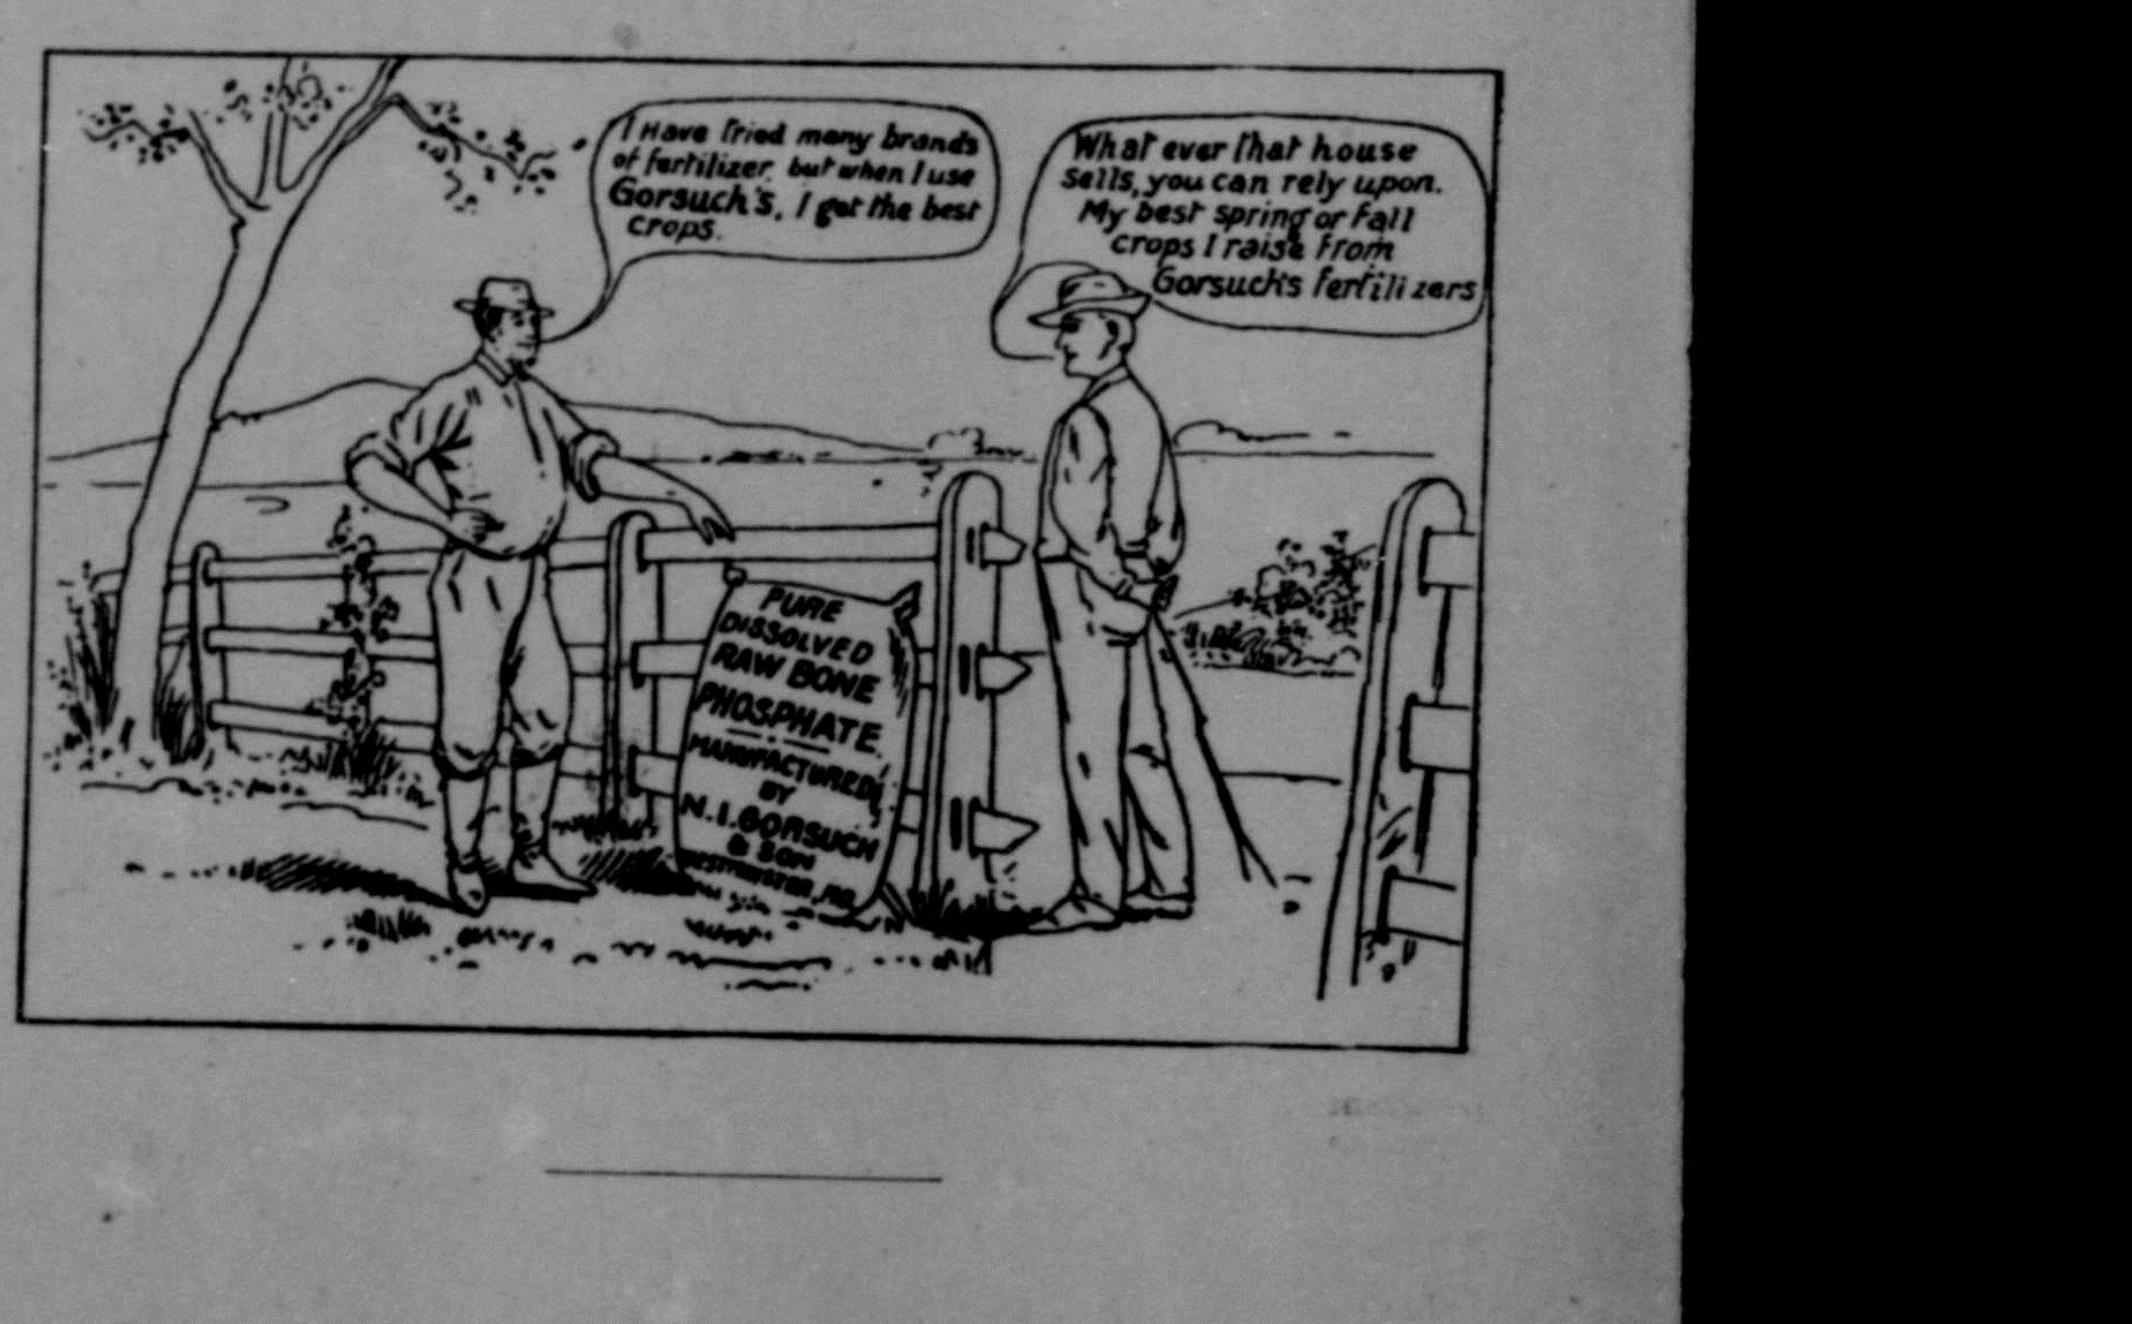
CORN AND POTATOES.



I have tried many brands of fertilizer but when I use Gorsuch's, I get the best crops.
What ever that house sells you can rely upon. My best spring for fall crops I have from Gorsuch's fertilizers.
Pure Dissolved Raw Bone Phosphate
N. I. Gorsuch

Corn and Potatoes are the staple crops and we have the

BEST FERTILIZER,

to grow them. We can furnish the best reference from those who have for many years used our Fertilizer, and the excellent crops they have raised—in many instances 15 barrels of corn to the acre—have been so very satisfactory they will use no other. We solicit a call.

Our prices are all very much reduced.

Very respectfully,

N. I. GORSUCH & SON.
