Dear Sir

My Worthy Neighbour Thompson has just called to say that he starts tomorrow Morning for your Neighbourhood, and I avail myself of his politeness to acknowledge rect. of your very friendly letter with the communication from your Consistory, or trustees of your Church. And to which I am sorry to say I was advised not to present to my Churches at present as the calls on them during the fall and Winter lately had been very numerous, so much so that they had been compelled to decline doing anything for the assistance of many Churches in very great want in the vicinity of our City — From the representations made to me I considered it more prudent not to press the subject at this time. Should a favorable opportunity occur you may rely on my attention —

Please remember me affectionately to your good Lady & family & believe me Dear Sir truly Yrs J. B. Montgomery
