Unionville Aug: 22.

Not a Lime or Lemmon can be procured in this place - nor do we know when they can be had. Shot of Balt.e or Fredk. — Nor can any crackers be got in this place - Mrs McS. sends you a little flour, perhaps better than you have on hand - We hope Mr B: will soon recover - Our Village is healthy - and the Country is as much so as could be expected owing to the extraordinary drouth - Very affectnly

Yours

A. M. McS.

Dear Sir, Yours of the 4th [redacted] received and was extremely sorry to hear you had so much sickness in your family, After a good deal of trouble I got the amount of your bill from Chesbrough - I have sold none of your flour as yet, and of course I cannot furnish you with sales at $7 - I have my house full of flour and is glad to get $6.75 for it - You no doubt are well aware that although the wagon price of new flour, is $7 that old will not sell for that price - So in justice to my self and my family I cannot allow you $7 - when I am glad to sell at $6.75 - [redacted] perhaps a change shortly will take place and then I will furnish you with a/c of sales - When your draft comes to hand I will honor it - The Barks and Castor oil, as well as the Lemmons, the bearer will deliver you, the lemmons are not plenty here, and I sent you [redacted] best I could get - I remain Dear Sir, yours affectionately
