Dear Sir -

Annapolis March 8th - 1824 -

It has been several weeks since I received your last Letter, and I have delayed to answer it, in hopes I should be able before this, to give you a favorable report as to your Money concerns here - I am sorry to say that neither Mrs Chase, or the Chancellor have as yet come forward to pay their Rents due to you -

As you informed me that you had written to the Chancellor on the subject I expected he would have paid by this time - I would write him again - urging that the Money be paid without delay - All things considered I could not undertake to write to Mrs Chase - she is a Lady who visits our Family once in a While - and being depressed at present in her circumstances - I should not like to incur her displeasure, by dunning her for Money - She is said to be an honorable Lady & anxious to pay her debts - I do believe she intends to pay you -
