My Dear friend

I write this merely to say, that I send you by the Hesperus, under cover to Doctor White, a continuation of the N. Whig, which I trust you will like better than the 10 former numbers which I sent you - At present I have only time to request that you may present my kindest remembrance to Mrs Bernie and family, assuring yourself, as usual, of the best & sincerest wishes for your health, happiness & comfort &c

Your sincere friend

Dear Sir

Baltimore 5th May 1824

Two or three days ago a large letter, & a small bundle of newspapers came here for you, by one of the Belfast packets; I did not like to put them into the Post office, as the expence would be heavy, & I know of no private hand to carry them. You have letters & can send some person to call for them, or direct me to put them into the Post Office. Any letters on hand for Belfast contained one ounce of importance yours sincerely
