C. Burnie Esq

Frdk 14th Sept 1824

Dear Father

In the case against the T.P. Co I observe its a Chancery suit issued by Quest for a claim of $1400 & upwards purchased from and Smith their desire its requested the road I spoke to Archelleyer but he is so much engaged about his election that I would think it might be proper to have a meeting & determine on the course to proceed If the road is sequestered & put into Trustees hands it will then be out of your but hands and the pltff would get nothing by it as all the money is now appropriated to the use of the road however when convenient I desire to hear from you on the subject I have not money I send to pay Barnes or your paper subscription The collector asked me if you would be here this Ct

Union Town Aug. 17. 1824.

Dr. Sir,

As Mr McAlhenny has occasion to send Harry to your house, we embrace the opportunity of enquiring after your Welfare; having understood, that you have lately met with an accident, by which you have received some injury. It is true we might have walked over to see you, and comfort you in your afflictions; but we might have only proven to be Job's comforters. meaning well, as Job's three friends no doubt did —

My little family are well at present, and desire to be remembered very affectionately to all of our friends at Beer-branch —

With much regard
yours
Mill S.
