Dear Sir — May 14th — 1825 — Annapolis —

Your Acct. against the Late Chancellor Johnson — which you enclosed to me in March — it was necessary to have it passed by the Orphans Court here — before it could be presented to the Administrator of his Estate, for payment — I presented it to the Court here — and on Account of its not being stated in due form — could not be passed — therefore you will have to state the Acct. again and send it on — when I will get it passed the Court & present it to his Son — for payment — The items in your Acct. all seem to be correct — but you must head the Acct. thus — "John Johnson — Late Chancellor of Maryland — deceased — to C. Birnie debtor — and after proving the Acct. before a Magistrate — the seal of the Clerk of the County must be put to the Acct. setting forth that the Person — before whom you take

Dear Sir — Annapolis June 8th — 1825 —

Dr. Hammond a young Gentleman of my acquaintance — of this Place, and well respected by his Friends here, has lately married a Daughter of my Friend Mr. Jonathan Pinkney, Cashier of the Farmers Bank of Maryland — and they leave this place tomorrow to take up their residence in Union Town not many Miles from you — Dr. Hammond means to practice Physic — and as he is said to be a young Man of steady good moral habits — I hope he may succeed in his profession — From the regard I have to the young Folks I have mentioned — I have to ask the favor of you — the first time you have occasion to be in Union Town — that you will call to see my young Acquaintance — I am sure they will be pleased by a visit from you —

I was not able to attend the late Cattle Show near Baltimore — Col. Lloyd whom I have seen on his return — tells me it was considered a good exhibition, particularly of Horses and Cattle — Our Friend Skinner I expect in his next Paper will give us a full account of all matters — Our crops of Wheat and Rye in this part of the World — promise very well — notwithstanding a violent storm of Wind and rain from the N. East
