sanguine that Jackson will be the president at the end of the present four years — I saw the Harrison & Harris family all well. Wms partner in Pittsburg had failed but he (W) would not suffer, farther than a slight irregularity for the present. I saw U S Heath at a gentlemans near Hartford were I dined on Saturday where Young Wilson the lawyer took me, Heath claims connexion says I'm a cousin & so I found when I was a great many Cousins they being his relations. Fanny is very well, hopes to have Mrs Turnbull in August she is obliged to go to bed at dark as they are not allowed to have candles, the scholars are not permitted to come into the parlour & her friends being few she will improve but little from society as she mingles but little in it, she seems anxious to go to Miss Marcellys, she has an invitation to go to the Eastern Shore from Miss Mary (in August) a relation to D Murrays I hope my Mother will allow her as she would like to do so. I did not go to see Rogers as I thought I would see him in June & the weather was so oppressively warm but yesterday rec'd a letter from him he was very well. There was a large fire here last week four houses burnt down & the inhabitants only enabled to save themselves & it was so rapid at 10 Clock in the morning a horse, Cow & Calf & several hogs were burnt & I'm told their cries were most distressing — The Cattle show at Balt I'm told was very poor indeed even inferior to last year. I send a paper containing the report of the show here. It will

next year be in yr neighbourhood I hope both you & the girls will have something at it. Rose is anxious to return home she now staying at Mrs Murdochs probably will ~~stop~~ return next stage after tomorrow if I do not get another conveyance

yr judge was yesterday posted by the Orphans Ct. I wish you would send me yr deed bill against the Turnpike Co that I may file a petition for the admission of Orles I spoke to Mr Tamy about it If you see D Kephart tell him I await an answer to my last by his son
