the rest. Mr Flemming has perhaps been influenced by the same motives, which induced me to come out, viz: to give our part of the County a candidate, and not knowing that I was out before him, for my letters would only reach Emmittsburg by Mr Grayson on Tuesday - I regret this circumstance should have taken place, for had I known of Mr. Fleming being out, I should not have offered, but would have supported him - But as I have been at all necessary Expence in getting my printing done, and my friends industriously engaged in the several Election Districts, I cannot now think of any thing but a vigorous prosecution of my case to a final issue. I wish if you could have an interview with Mr. Flemming, that you would be pleased to state to him what I have related & urge the necessity of his retiring, and allowing his friends to unite with mine for should he continue a candidate I cannot see any prospect of his success - and he will materially injure me - for I have counted on the Emmittsburg District. My success depends much on how the Voters of the upper districts turn out - therefore if you have an opportunity urge out all, who may be friendly disposed towards us -

In much haste

Yours sincerely

A. McSherry

the old Leaven of party will be attempted - Adelsberger is suspected by some, to be busy - but he has assured me he will do nothing to injure me -

I disavow all party feelings; and wish it may lie dormant. There is no cause to disturb its slumbers -

I purpose going either to Westminster or to Liberty tomorrow -

I wish you to bring out as many votes as possible - and see that I have justice done me on, the day of Election - With due respect

your obt

A. McSherry

I have seen Mayor Gorsuch & Friends.
