Annapolis Feb: 21: 1827

Dear Sir,

Your petition for the County Levy Court, to re-build the Manocasy Bridge has been received this day.

I wish you had been more explicit, and stated what sum was estimated, to be sufficient, and necessary to effect this purpose. Is it contemplated to make it a toll Bridge?

There is a petition now, in the hands of Mr. Farquhar, and has been, for 3 weeks, for a County Levy of 17, or 18 hundred dollars, to rebuild, or rather to build a stone bridge over the little pipe creek on the Frederick road. This Levy, and one of say 2500 dols for your bridge on Monocasy, will make the good Citizens kick. And we cannot authorize the County to erect a toll bridge, without the relinquishment of your turnpike Company, of all their right thereto. I will tomorrow present your petition, and conduct my Colleagues on the subject. In the

Dear Sir

I hope in relation to the Roan case, you have quarterly balanced yr accounts & ~~can~~ retained any balance then on hands as you of course would be answerable as if you were to have pd it over. I have detained bringing the question before the Court with a view that you may make arrangements accordingly if you have not by getting money in yr hands sufficient to meet any balances which should have been in yr hands at the end of the respective quarters. In relation to Baker's business the Orphans Ct have not decided
