I wish you, to give your ideas, and opinions more at large on the subject of your petition. We can pass a law authorizing and empowering the Levy Court to Levy a sum, and contract with a person or persons to rebuild this bridge, if in their opinion it should be necessary and expedient - not to exceed, the sum of, say 1000 Dols annually; until the amount is collected. -
How would this do - would the people agree to this, or do you think the Levy would undertake to act -? -
I am sorry to find, strong measures are taking to remove the Westminster Bank to Frederick - Get this done and, farewell to your road ever getting any part of the bonus for the Extending of the Bank Charter. There is more behind the Curtain, than meets the Eye - I wish the friends of the Bank in our section of the County, to be awake and adoring - their memorial has come on, but, the other people, contend that they have a large Majority of the Stockholders with them - Dr Tyler has come on, on that business. I wish you to urge them to forward on to me every thing they can, to defeat a removal -

I have written to John Pampeler, to Isaac Shreve, John Fisher, and to Jesse Slingluff on the subject - Philip Calvert has returned on yesterday from West river - I have not yet seen him, but intend going in a few Minutes to Col. Calvert & Key Esq. is here - St Johns College Commences today, and the Degrees will be Conferred tomorrow -
I have written in haste -

Respectfully
Yours
A. McSherry

Nor indeed am I very sure that they will act I wish you to inform me by next mail what to do in case they will not or should decide against you - At any rate of chance of recovery I think (of the entire claim) would be very slight inasmuch as the certificate of the Ct of York County is not what is required by our laws therefore Baker might properly say he had not legal notice of the claim

Yours
A. McSherry
