Dear Father

Yrs of the 22nd & 25th Inst., In relation to the communication you mention I think it better not to be concerned. In all probability the affairs of Taneys estate are much complicated particularly owing to the negligence of the present Admr. It would therefore require much of my attendance in that neighbourhood & consequent absence from my office, where, although I am not much occupied, my occasional absence from it might be more injurious than the benefit would be great could I obtain the appointment. Besides in all probability the trouble & expence attending would be greater than the profit or benefit accruing for I suppose the whole pastete must be in a dreadful state of confusion. As to the Tyke I think you had as wise make yourself safe as soon as you can. That
