Mrs Lloyd

few days while I was to pay you a visit, I only got home from Balte. this day week while there I made sale of some unimproved lots for a pretty good price, I found the Baltimoreans in high spirits as it respects the Rail Road and hope they may succeed in their undertaking. If you will be good enough to send me a Bushel of your Beans to be left at Williams Ferry, directed to me you will oblige me, I think, that number will be enough to begin with — Mrs Graff and William desire me to present their best respects

Yours very respectfully
Sebastian Graff
