they are now for I can never go to College
in the world going on as I am I tryed all
I could to read testament but Williams
says I must go on in the Greek I am in
I cannot keep up with the class and
learn it half and besides it has nothing
to do with the books I read for College
David will certainly go before me & I want study
the right books I spoke to Mr Cushing
and he adviced me to write to you about
it You might be inclined to think Sir
that I am fond of moving about from
school to school but I assure you it is not
my case I should be contended here at
College perfectly if I were going on well
But to see David going on so well and me
quite the contrary it makes me feell
very sad indeed Please to do something that
will let me study the right books I should
be pleased to see you come down soon but
if you can not do that which I am afraid
you must please write by the first way
Your ever affectionate
Son Rogers Burna

I like the College very well and would like to stay until I go to Yale College
Where I am very cheerfull
the matter is all very cheerfull
Remember Dear Father this week
