American Sentinel.

WESTMINSTER, MARYLAND.

W. L. W. Seabrook, - Editor.

Entered at the Postoffice at Westminster, Md., as Second-class matter.

SATURDAY, MARCH 26, 1898

A resolution introduced by Senator Bouic, of Montgomery county, complimenting and expressing confidence in President McKinley and in Gen. Fitzhugh Lee, our Consul-General at Havana, has been passed by the Maryland Senate. Senator Bouic is a Democrat and Republicans and Democrats did not divide on the resolution, but voted, in a patriotic spirit and in unison. Gen. Lee, who is a Democrat, has been retained at Havana, by the administration, which fully recognizes the value of his services.

City Register, Col. J. Frank Supplee, of Baltimore, has revived discussion of a project to sell the city's holdings in the Western Maryland Railroad, but the suggestion does not meet with favor among the best informed business men. Col. Hood, the president and general manager of the Western Maryland, has given some cogent and convincing reasons against such a sale, and the best sentiment is with him. The loans maturing in 1900 and 1902, endorsed by the city, can readily be refunded at a low rate of interest, saving about $46,000 a year. The earnings of the road have increased largely, having been, it is said, $53,542 more for the three months ending January 1st, 1898, than for the corresponding period of the preceding year. The city's interest in the road represents a sum several millions greater than the $5,000,000 Col. Suppless suggests as the selling figure. To make a sacrifice of such dimensions, when a reasonable prospect of full reimbursement is held out, would be poor financiering, to say nothing of the danger of the road falling under the control of parties who might employ it directly against Baltimore interests. It is to be regretted that suggestions of the character mentioned seem to come along, invariably, whenever some project to develop and increase the efficiency of the road is under consideration. They only serve to hinder and render more difficult the well digested plans of the railroad authorities, and it is difficult to rid the mind of a suspicion that they are so designed.

Powers of County Commissioners in Relation to County Roads.

The subject of "good roads" has recently been attracting much attention in this and other States, and many of the people of this county have exhibited great interest concerning it, and in projected legislation for the improvement of the highways. Apparently the suggestion looking to the passage of a law to bond the county for the purpose of raising money to stone or macadamize the roads has not met with favor among the tax-payers and can hardly be considered practical at this juncture. There is, however, an earnest desire that the large amount of money annually raised by taxation for road purposes shall be expended to the best advantage, and it has been frequently suggested that the best results can only be obtained by the employment of an expert road maker or engineer to overlook the work. This suggestion, while not exciting much adverse criticism, has not been acted upon, possibly because it was considered impracticable without special legislation, which nobody seemed prepared to urge upon the attention of legislators, except for the State at large.

It appears, however, that the County Commissioners of the several counties of this State are already clothed with ample power under existing law to put the suggestion into practical operation and give it full force and effect. County Surveyor Kennedy, of this county, has been looking up the road laws and has found in the Code of Public General Laws the very provision proposed. In vol. 1, page 406, of this code, authority is given to the Commissioners to commit the whole matter to the charge of officers specially fitted for the work. The language of the law is clear and unequivocal. It says: * * * * "and whenever, in their (the county commissioners) opinion, the public interests require or will be thereby advanced, they may commit the whole matter of grading and constructing public roads, and the repairs thereof, and the construction and repairs of public bridges, to the charge of competent and scientifically educated civil engineers, who shall direct and manage all such public works under the immediate control of said County Commissioners," &c.

It is true that the repairing of public roads in this county has been committed to the charge of District Road Commissioners, under the act of 1892, but that law especially reserves certain powers to the County Commissioners, among which that specified in the above quotation appears to be included. While, therefore, the law creating the office of Road Commissioner somewhat complicates the matter, it does not seem to raise an insuperable obstacle to the employment of a skilled engineer to direct the work of road making and repairing, if the County Commissioners should so elect. In fact, the District Commisioners might, under the circumstances, be able to give practical effect to the plans of such an officer in carrying forward the work. Certainly the subject is worthy of the most careful consideration by the County Commissioners.

There is another point in the general law relating to County Commissioners that should not be overlooked. One of the most important things in road making is drainage, and it has been said that in this respect the supervisors or commissioners have been frequently handicapped by inability to find an outlet for the water. Yet the law gives full authority to make drainage thoroughly effective. In vol. 1, page 427, of the Code of Public General Laws, it is provided that * * * * * "the County Commissioners of any county are authorized, when the county cannot be conveniently drained by drains along the said county roads, to make the same upon the property outside the limits thereof; and they shall contract for the lands that may be required for that purpose, as above provided, or they may proceed to condemn the lands that may be necessary for the purpose."

It is very clear, therefore, that full power is lodged in the County Commissioners to have the work of road making and repairing done under the supervision of a competent engineer, and to provide the means of proper drainage, without which it is impossible to have good roads.

A decided improvement has been made in many places under the District Commissioner system. Some roads, which were very bad until given in charge of commissioners who reside in their vicinity, have been made much better

[redacted]

with the expenditure of less money
was previously appropriated to t
thus demonstrating the advantage o
intelligent application of the money
pended. It is reasonable to sup
that an expert civil engineer would
able to do still better, as in addition
his expert knowledge, his whole
would be devoted to the work.

Protection In The South

The beneficial effect of a prote
tariff law is being felt very plainly i
southern section of the country.
Manufacturers' Record reports near
hundred new enterprises in the Sout
which Alabama, North Carolina
Virginia have eight each; Georgia
Texas nine each, and Kentucky, L
siana, Missouri, South Carolina
Maryland a half dozen each. These
establishments include furniture f
ries, pottery works, shingle mills, c
ing factories, hat manufacturing e
lishments, pump works, rubber m
factories, cotton mills, tobacco facto
car-wheel works, shoe factories, car
manufacturing establishments and
rious other enterprises. With such
sults there should be a rapid growt
protection sentiment in the South,
there seems to be no doubt that
trade is no longer regarded with unm
favor by the Southern people. They
waking up to the fact that the
tariff promotes their interests, deve
manufacturing industries and cr
new markets for farm products.

Hon. Frederick B. Gordon, of Co
bus, Ga., in a recent letter publishe
the *Manufacturers' Record*, says: "
real industrial advancement Ge
must dream no longer along the lin
dead issues, and must drop from poli
preferment the many demagogues
fatten upon the prejudices of the
ple. Let Southern speakers deal le
traditional oratory and teach the pe
the sound economic principles that
prevail ere the South can reach the
tion in the industrial world which
claims."

Cashier Brabham, of a banking c
pany at Bamberg, S. C., in a rece
published letter, says, "that the op
tives in the mills of that section are
ing far better than they did on their fa
and are cheerful and seem to be conte
and happy, and adds: "The mills
increased in volume the mercantile
ness and enhanced the value of prop
all around us. The condition of
farmers in the neighborhood has
improving from the fact that they
provisions to sell to the operatives a
profit, whereas if the mills were not
reach they would raise cotton at a lo

The Destruction of the Maine.

The report of the Naval Board of
quiry concerning the destruction of
U. S. Warship Maine, in the harbor
Havana, reached Washington, Thurs
evening, in the custody of officers
tailed to bear it to the President. It
not delivered to the President u
yesterday and its conclusions have
yet been made public. There seems
be no doubt, however, that the explos
which destroyed the Maine was exter
It is generally supposed that the c
was unable to ascertain the parties
rectly guilty of the outrage, but th
can be no doubt that they are Spa
officials. The measure of Spain's
sponsibility in the matter remains to
determined. Preparations for the
forcement of whatever demand may
made by the U. S. Government for
aration and for the cessation of
hopeless efforts and barbarous meth
of Spain to subdue the Cuban insur
tion, are being pushed with great vi
and energy, and an impression prev
that it will be exceedingly difficul
avoid war. It is said the President
hopes that peaceful relations may
maintained with Spain, but the prosp
of such a result is certainly not flat
ing.

Grand Lodge I. O. M.

The Grand Lodge of Maryland, In
pendent Order of Mechanics, held its
nual session at Hyattsville, on Mon
and Tuesday of this week. Th
Lodges were represented by about
hundred delegates. Twenty-three m
bers of Westminster Lodge were in attendance. In the election of officers, for the ensuing year, Col. Wm. Louis Schley was defeated for re-election as secretary after twenty-five years of service. The following were the officers elected:

Grand architect, Herbert L. Byrd, Baltimore City Lodge.

Vice grand architect, William G. Cooper, Trenton Lodge, of Baltimore county.

Grand secretary, John W. Jones, Centennial Lodge, Baltimore city.

Grand treasurer, J. F. Copp, Friendship, Lodge, Baltimore city.

Finance committee, Charles Balluff, Lafayette Lodge, Baltimore city, chairman; Theo. J. Stempel, Warren Lodge, Baltimore city; John Ludson, Chosen Friends Lodge, Baltimore city.

Representatives to Supreme Lodge, Elmer Bernhard and B. F. Crouse.

Two sessions were held on Tuesday, the Grand Lodge closing on Tuesday night to meet next year in Baltimore. The endowment question was defeated at the morning session, the county lodges voting almost solidly against any change from the present system.

A motion was passed creating a funeral fund association, leaving it optional for members to join.

A communication was received with reference to the establishment of a ladies' lodge of Mechanics, and this question will be considered at the next annual convention.

The Maryland Annual Conference of the M. P. Church, will convene in West Baltimore, on Wednesday, April 6th.

Snow and sleet fell Thursday in parts of Great Britain.

Some figures just issued by the Statistician of the Department of Agriculture are of especial interest to farmers in that they show the great improvement in the prices of all farm stock and farm products in the past year. "The farmers of the United States," he is quoted as saying, "have received something like $130,000,000 more for their cereal crops than they did in 1896, and $80,000,000 more than for those of any preceding year since 1892. The hay crop, notwithstanding it was the largest with one exception ever raised, commanded an increased price per ton; wool is higher, considerably higher

[redacted]

Col. Wm. A. Spencer, not Col. Spencer Clark, was Clerk of the Court of Appeals, and Col. Llewellyn Boyle, not Col. J. B. Boyle, was State Librarian.

Mason, of Washington county, was not a Judge of the Court of Appeals at the time mentioned, but Collector of Customs at Baltimore. I do not think that Stewart, of Dorchester county, was one of the Appellate Judges either. Judge James L. Bartol was elected in 1857 from the district composed of Allegany, Washington, Frederick, Carroll, Baltimore and Harford counties. Judge John C. Le Grande was from Baltimore, Judge Eccleson, from the Eastern Shore and Judge Wm. H. Tuck from Southern Maryland.

Mr. Waters was not elected Land Commissioner, or Commissioner of the Land Office, by the Legislature. That officer was then chosen directly by the people. From data in my possession, Mr. Editor, I notice that you were elected to that office in 1857, at the time Thos. Holliday Hicks was elected Governor, Wm. H. Purnell, Comptroller, and D. H. McPhail, Commissioner of Lotteries, and that you were re-elected in 1863, without opposition, having been re-nominated by acclamation by the conventions which nominated H. H. Goldsborough, and Samuel S. Maffit as opposing candidates for Comptroller. Mr. Waters, to whom E. M. S. alludes, was elected Keeper of the Chancery Records, and served for two years. The office was abolished in 1862 and the records of the old High Court of Chancery were transferred to the custody of the Commissioner of the Land Office. K. S.

Governor Lowndes has issued a proclamation designating Friday, April 15, as Arbor and Highway Day.

Rev. John Franklin Cowan, D. D., of Pittsburg, has become an associate editor of the *Christian Endeavor World*. Dr. Cowan has been for many years the successful editor of the Sunday-School and young people's papers of the Methodist Protestant Church. He has ably represented his denomination on the board of trustees of the United Society of Christian Endeavor. His books for young folks are popular, and deserve their popularity. His stories and essays are gladly accepted by the leading periodicals in all denominations. He has for years been a most acceptable speaker at all kinds of Christian Endeavor conventions. He has contributed to *The Christian Endeavor World* some of its brightest serials and essays. Personally, he is one of the most lovable of men and most devoted of Christians, and the readers of *The Christian Endeavor World* are to be congratulated.

A new route for the extension of the Baltimore and Potomac Valley Railroad from Hagerstown to Altenwald, Pa., is to be surveyed by the engineers of the Western Maryland Railroad. It is along Antietam creek, and is known as the water route. In the meantime preparations will be made for the construction of the road on the line already surveyed, if that shall be found preferable after the Antietam line shall have been gone over by the surveyors.

A rear end collision of freight trains on the Western Maryland Railroad occurred about a mile from Hagerstown, on Tuesday morning. The engines were badly damaged, several cars loaded with coal and coke smashed and other damage done to the trains. John Moser, a Baltimore and Ohio Railroad brakeman, was badly hurt, and G. B. Rusell, brakeman on one of the trains, was considerably injured by jumping.

A blizzard prevailed in parts of Missouri, Illinois and Arkansas on Wednesday. The temperature dropped 48 degrees in the localities referred to. Further west the storm was very severe and it is feared the fruit buds have been destroyed in Kansas. In the western part of that state the temperature was below zero.

The Legislature of Maryland has passed a joint resolution commending the financial policy of President McKinley and Secretary Gage. Its consideration created no excitement. The vote in detail has not appeared in the daily newspapers, but it seems to have encountered very little opposition.

The Maryland Senate has passed a bill granting $50,000 per year, for two years, to the Johns Hopkins University. The same reasons which occasioned the defeat of the other Johns Hopkins relief bill in the House will probably cause a similar result in the case of the new bill.

Disastrous floods have occurred this week along the Ohio river and its tributaries in Ohio, Indiana and Illinois. A washout near Zanesville, Ohio, caused an accident to a passenger train of the B. and O. Railroad. The passengers had to be rescued in boats.

BUSINESS LOCALS.

TRUSTEES' SALE
OF A
Desirable Farm,
Near Warfieldsburg, Carroll County, Md.

By virtue of a decree of the Circuit Court for Carroll county, sitting as a Court of Equity, passed in cause No. 3614 on the docket of said court, wherein Kenley E. Carr and others are plaintiffs, and Elmer G. Carr and others are defendants, the undersigned, as trustees, will sell at public sale, on the premises, on

SATURDAY, 16th of APRIL, A. D. 1898,

at 2 o'clock, P. M., all that desirable farm, containing

137 ACRES OF LAND, MORE OR LESS.

The improvements thereon consist of a 1½-Story Log Dwelling House, Dairy, Corn House, Large Barn and other outbuildings; spring of excellent water near the house, stream of running water at the barn. The land is in a good state of cultivation, and produces good crops. There is a due proportion of timber, also one of the best meadows in the vicinity.

This farm is in Westminster district, Carroll county, Md., is about one mile from Warfieldsburg, about five miles from Westminster, is on Morgan's Run, adjoins the land of Jesse N. Williams, Theo. C. Stoner, Catharine Carr and others, and is now occupied by Nathan Haines. This farm is desirably located, is convenient to mills, market, schools, churches, &c., and is worthy the attention of purchasers.

A survey and plat of the farm will be made before the day of sale, and a plat of the same will then be exhibited by which it will be offered and sold.

Terms of Sale.—One-third part of the purchase money shall be paid by the purchaser or purchasers, to the trustees, on the day of sale, or upon the ratification thereof by the court; and the residue shall be paid in two equal payments, the one to be paid in six months and the other in one year from the day of sale, with interest, and to be secured by the notes of the purchaser or purchasers, with security to be approved by the trustees, or the whole of the purchase money cash, at the option of the purchaser.

MORTGAGEE'S SALE
OF
Desirable Property,
In Union Bridge, Maryland.

By virtue of the power contained in a mortgage from David G. Ogle to John W. Angel, bearing date January 31st, A. D. 1893, and recorded among the Real Estate Mortgage Records of Carroll county, in Liber B. F. C. No. 76, folio 86, &c., the undersigned will sell at public sale, on the premises, on

WEDNESDAY, APRIL 20th, A. D. 1898,

at one o'clock, P. M., all the land described in and conveyed by said mortgage, consisting of

EIGHT ACRES, MORE OR LESS.

The improvements thereon consist of a comfortable Two-Story Frame Dwelling House, Stable, Stone Cutter's Shop, Slaughter House and other outbuildings; water convenient to the buildings, and running water through the land. The land is of superior quality and is well adapted for a residence or any business or manufacturing purposes.

The land will be offered as an entire parcel; also in three separate parcels, as follows:

First. A parcel containing about one-quarter of an acre, with the buildings thereon, fronting on Main street.

Second. A parcel containing about 4½ acres, lying between the race and across the Railroad.

Third. A parcel containing about 3¼ acres, adjoining the last mentioned parcel.

It will be offered as above and sold as may be for the best interest of the parties concerned. This property is advantageously located on the Western Maryland Railroad and the Main street, near the depot, in the town of Union Bridge, Md., and is worthy the attention of purchasers.

Terms of Sale, as prescribed by the mortgage:—All cash; but credit terms will be given as follows: one-third cash on the day of sale, one-third in six and the other one-third in twelve months from the day of sale, the credit payments to be secured by the notes of the purchaser or purchasers, with approved security, bearing interest from the day of sale.

GILBERT & GEHR,
Cor. Main & Liberty Sts.,
Westminster, Md.

Plumbing, Heating, Spouting and Tin Roofing is our specialty. ja-20-1y

Two Ways
of getting Glasses:

ONE,
to go to a first-class optician, have your eyes properly tested and get what you need;

THE OTHER,
to go to a merchant who keeps spectacles, make a "grab in the bag," as it were, get a pair that don't fit you (although it may seem so for the moment), run the risk of ruining your eye-sight entirely, and all for a very small difference in expense.

If you need the services of a good optician, we can serve you well and cheaply.

A. H. WENTZ,
Jeweler and Optician.

To Be Helpful and Homelike--

That's the ambition of our store. The more helpful we are to the public in their buying, the stronger will be their friendship for us. The more homelike and hospitable the store, the more attractive it is to those who have money to spend.

It's This Spirit That Pervades this Store from Errand Boys to Proprietors.

It's a money-spending time now, and an anxious time with many who must practice true economy in their purchases. That's where the helpfulness of our store is advantageous. If you are not already among the list of our regular patrons, suppose you give us a trial the beginning of this new spring season.

SPRING DRESS GOODS.

From the sheep's back to the shuttle is a long jump; many processes 'twixt the shearing of the raw material and the showing of the finished product. The wonder of it all is how we can offer such stylish handsome fabrics for so little money.

COLORED DRESS GOODS.

Covert Cloths in all the new shades.

Broad Cloths in a full assortment of colors.

Poplins, now so very popular, in every line.

Byadere Stripes to suit every fancy.

Novelty Suiting from the cheapest to the best.

Plaids—It is a known fact that we are headquarters for them.

Serges and Henriettas, the best values ever shown.

FANCY BLACK WEAVES.

Fresh from the foreign looms; artists designed them, experts wove them, and we're going to sell them. There is refinement and gentility in a handsome black dress. There's economy in wearing, and wisdom in choosing from the following lots:

Biaritz Cloths, Empress Cloth,
Crepons, Stephana Cords,
Covert Cloths, Diagonals,
Brilliantines, Mohair,
Serges, Henriettas,
Whip Cords, Broadcloths,
Mohair Brocades, Lusters,
Surra Cloths, also many others.

Black Goods are very much in demand. For this reason we have made this unusual preparation.

SILKS. SILKS. SILKS.

A worm—a mulberry leaf—a pod the size of a peanut, and yet from this humble combination is evolved the richest fabrics that the world produces. Silks used to be expensive; not so now. Every woman can afford to wear silk at our prices.

Satin Duchesse, Peau DeSoi,
Brocades, Printed Silks,
Fancy Colored Plaids,
Fancy Colored Stripes,
Fancy Colored Checks,
High Colored Satins,
Changeable Taffetas, &c., &c.

DRESS TRIMMINGS AND LININGS.

Many a handsome dress is spoiled by poor trimmings and linings. Many a modest dress has been made to give nearly double service by proper attention to these things. In this store you can only buy the best.

FOR TRIMMINGS.

Chiffons, Muslin De Soirs, Plaited Liberty Silks, Braids and Gimp Ornaments, Braids, &c., &c.

FOR LININGS.

A beautiful line of fancy striped Taffetas, all cotton, but as handsome as if every thread were silk.

Our new SPRING STOCK of Men's, Boy's and Children's Clothing, Shoes and Hats, Ladies', Misses and Children's Shoes is now complete. To all of which we cordially invite your inspection.
