My dear Birnie

I have at last received a letter from Dick, dated 21st Feby last, by a Ship from New York to Liverpool, only at hand on the 27th Inst. He is still full of complaint, between ill health and poverty, I am sorry I am so like him, but [redacted] of us, He talks of the Wilderness, his miserable hut, his children and himself going barefooted three months in the year, the toils he has injure to make out a miserable existance for his wife and them, and all on account of his sins, why, I believe he has led as sinful a life as the most of men, and now he begins to complain for the persecutions he is obliged to submit for his past deeds, I dont like such language, why does he complain of the just vengance of God for punishing him here, well may he be satisfied, if he esca[redacted] ; I say then, let him do all he can to blot out his sins while here, their is still mercy with an offended God, through Jesus Christ, to whom we must all look to for redemption, He mentions Grenvilles leaving him, and says he is fixed with Gilman Richard & Co in Cincinnati, with every prospect of doing well, I rejoice at Grenvilles success, I had always a good opinion of him.

It is now full time to congratulate you on the late election for the Presidents Chair, knowing how anxious you were for the success
