Respected friend

We send a new plough of a stronger kind than the other was which we think will stand well but we do not warrant for 3 years but we will warrant against defects for a reasonable time, (John Stewart says we will warrant for 3 years but you must keep it in the barn & let nothing fall on it) — we think you will like it —

We send back the small lima Beans having in a full supply before yours came we sell mostly the large kind now —

We are very Respectfully
