Marsh Creek May 29th – 30

(Dr Sir)

I have four young heifer calves of half Devon blood from which I wish to improve my stock of cattle – and having been informed that you have a full blood Devon Bull calf I wish to know whether you will allow me to put my heifers to him – whether it would be convenient for you to pasture them until they have been served – and whether this could be done without any risk of their mingling with any inferior stock By answering these queries and having a note for me at Mrs Reids so that I get it by saturday week you will much oblige

Your Obt Servt

J. Crawford

Mr C. Birnie

Mark Creek Md

Rockdale, 29 March 1830.

Dear Sir

We have recd the wool in good order, it is not so much as we expected but sufficient until you shear –

We send you herewith, $150 – which is something more than our engagement.

Respectfully
In haste

Dear Sir.

Annexed please find Bill of the Sundries as per your order. – We certainly sent the fleece of wool by your Wagon per your order some time ago – at least such is our impression and we cannot find the wool in the house. –

Respectfully
Talbot Jones & Co
